Information:

DIXIX Eyelash Curler EC-309P is an electric eyelash curler that, thanks to gentle heating, helps lift, curl and shape the lashes, giving them a naturally defined look. The double heating element increases the contact area, making it easier to style both short and long lashes evenly. A clear temperature indicator changes from blue to red, showing when the device is ready to use. The slim, lightweight pen-like design makes the curler convenient for everyday make-up and easy to store or take when travelling. Powered by one AAA battery, it offers cordless use.

Full product description

Lifted and curled lashes

DIXIX Eyelash Curler EC-309P is an electric eyelash curler that helps curl and shape the lashes. Gentle heat makes it easier to give them a lifted shape, making the device well suited to everyday make-up application.

Thermal lash styling

The heating system helps style both shorter and longer lashes. The heat makes it easier to lift and shape them without using a traditional clamping mechanism, supporting comfortable care around the eyes.

Convenient addition to everyday make-up

The slim design makes it easy to guide the curler along the lash line. The device helps separate the hairs and give them a neat appearance, making it a practical addition to your everyday make-up bag.

Dual heating element

The dual heating system increases the contact area between the curler and the lashes. This helps lift them evenly and makes it easier to achieve a naturally curled look along the full length.

Clear temperature indicator

The built-in indicator changes colour from blue to red when the device reaches the temperature suitable for use. This solution makes it easier to monitor the heating process and lets you know when you can start styling your lashes.

Lightweight and easy to store

The compact pen-like shape means the curler can be conveniently stored in a make-up bag or taken on a trip. The EC-309P model is powered by one AAA battery, so it does not require a power cord. The battery is not included.
