Information:

DIXIX Mini Hair Remover is a compact, cordless shaver for removing unwanted hair from the face and selected areas of the body. Its slim, ergonomic design sits comfortably in the hand and fits easily into a cosmetic bag, handbag or luggage, making it ideal for travel too. The rotating head with steel blades and a covered design helps remove fine hairs precisely, while the built-in light makes grooming easier even in low light. The detachable head and IPX7 waterproof rating ensure easy cleaning, and USB-C charging adds convenience for everyday use.

Full product description

Care always at hand

DIXIX Mini Hair Remover is a compact shaver designed to remove unwanted hair. Its slim design makes it easy to store the device in a make-up bag, handbag or travel luggage. This means the shaver can be kept with you both at home and when travelling.

Convenient one-handed operation

The ergonomic shape means the device sits comfortably in the hand and can be guided smoothly over the skin. The clearly placed button allows you to start grooming quickly. Cordless operation reduces the need to use a cable when removing hair.

Rotating head with steel blades

The single rotating head adapts to guiding the device over different areas of the skin. The stainless steel blades help to remove fine hair precisely. The enclosed head design limits direct contact between the blades and the skin.

Built-in light to make grooming easier

The built-in light helps you spot fine and light hairs, even in poorer lighting. This makes it easier to monitor results when grooming the face and selected areas of the body. The compact head allows the device to be guided comfortably around the cheeks, chin and above the upper lip.

Easy cleaning and IPX7 protection

The detachable head makes it easy to remove hair residue after grooming. The IPX7 water resistance rating allows the device to be washed and helps maintain proper hygiene. The white housing and simple form suit the fittings of a home bathroom.

For facial and body grooming

DIXIX Mini Hair Remover can be used to remove hair from selected areas of the face and body. The rechargeable battery power enables convenient cordless use, while the USB-C port makes charging the device easy. The shaver is ideal for daily grooming and quick touch-ups before going out.
