Full product description

Dreame vacuum cleaner battery

Increase the performance of your vacuum cleaner with the new Dreame T30 R20 21.6V 3000mAh battery. Thanks to its increased capacity, **the Dreame vacuum cleaner battery** allows you to work longer, making cleaning more efficient. Choose the **Dreame T30 R20 battery** and enjoy more power and longer autonomy of your equipment.

Battery for Dreame T30 and Dreame R20 vacuum cleaner

Restore your robot's full performance!

New 3000mAh battery ensures longer operating time, better
cleaning results, and full power.

Longer operating time

The **3,000mAh** battery provides a longer run time for your vacuum cleaner, allowing you to finish cleaning without frequent recharging. Thanks to **the Dreame T30 R20 21.6V battery**, your vacuum cleaner will last much longer, increasing your convenience. This solution makes daily cleaning less time-consuming.

3000
mAh

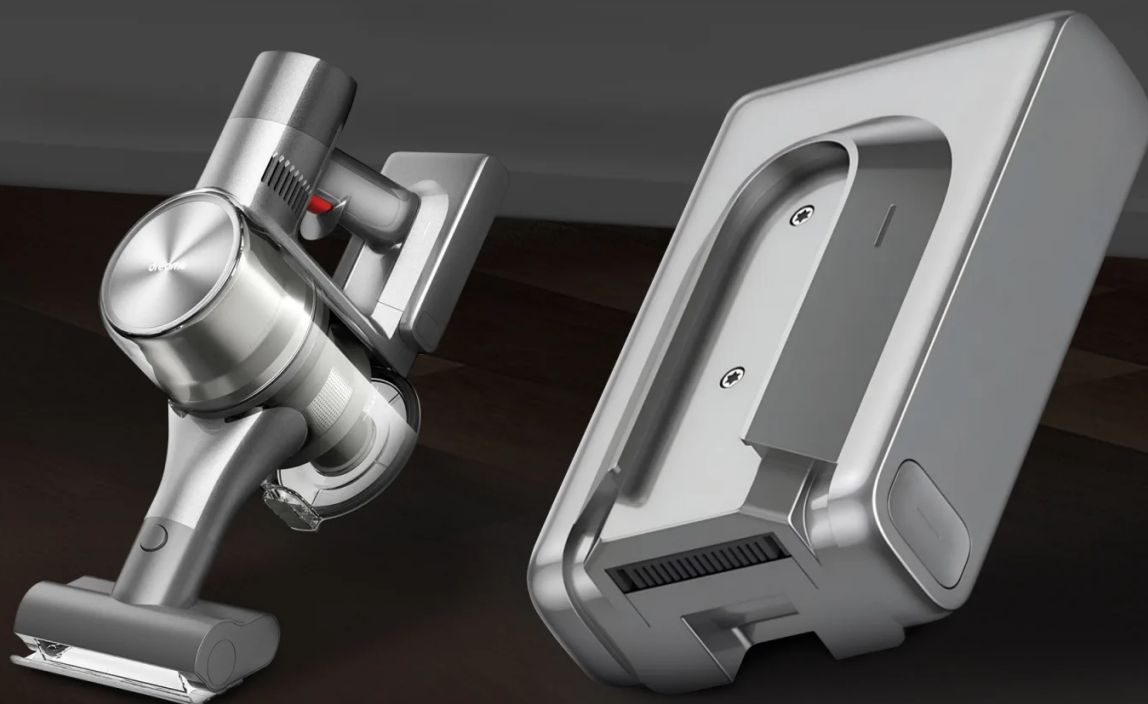

Capacity

21.6 V

Voltage

Li-ion

Battery type

Perfect fit for your robot

Compatibility with Dreame models

The battery fits a variety of models, such as **Dreame T30** and **Dreame R20**. No matter what model of vacuum cleaner you have, you can be sure that the battery will fit perfectly. So you can replace the battery without worrying about the fit of your device.

Compatibility with Dreame models

The battery fits various models, such as Dreame T30 and Dreame R20.

Some reasons to replace the battery in your device

More power - the new battery restores the full power of the device for better efficiency during operation.

Greater autonomy - by replacing the battery, the operating time of the device is extended, allowing it to be used for longer periods of time without recharging.

Safety of the device - a worn-out battery can cause overheating or other problems with the device, a new battery will minimize these risks.

Improved performance- a new battery improves the overall performance of the device, resulting in better performance and lower power consumption.

Easy replacement- replacing the battery is simple and quick, and will get your device working like new again.

Benefits of battery replacement

Longer robot
operating time

Full power
and efficiency

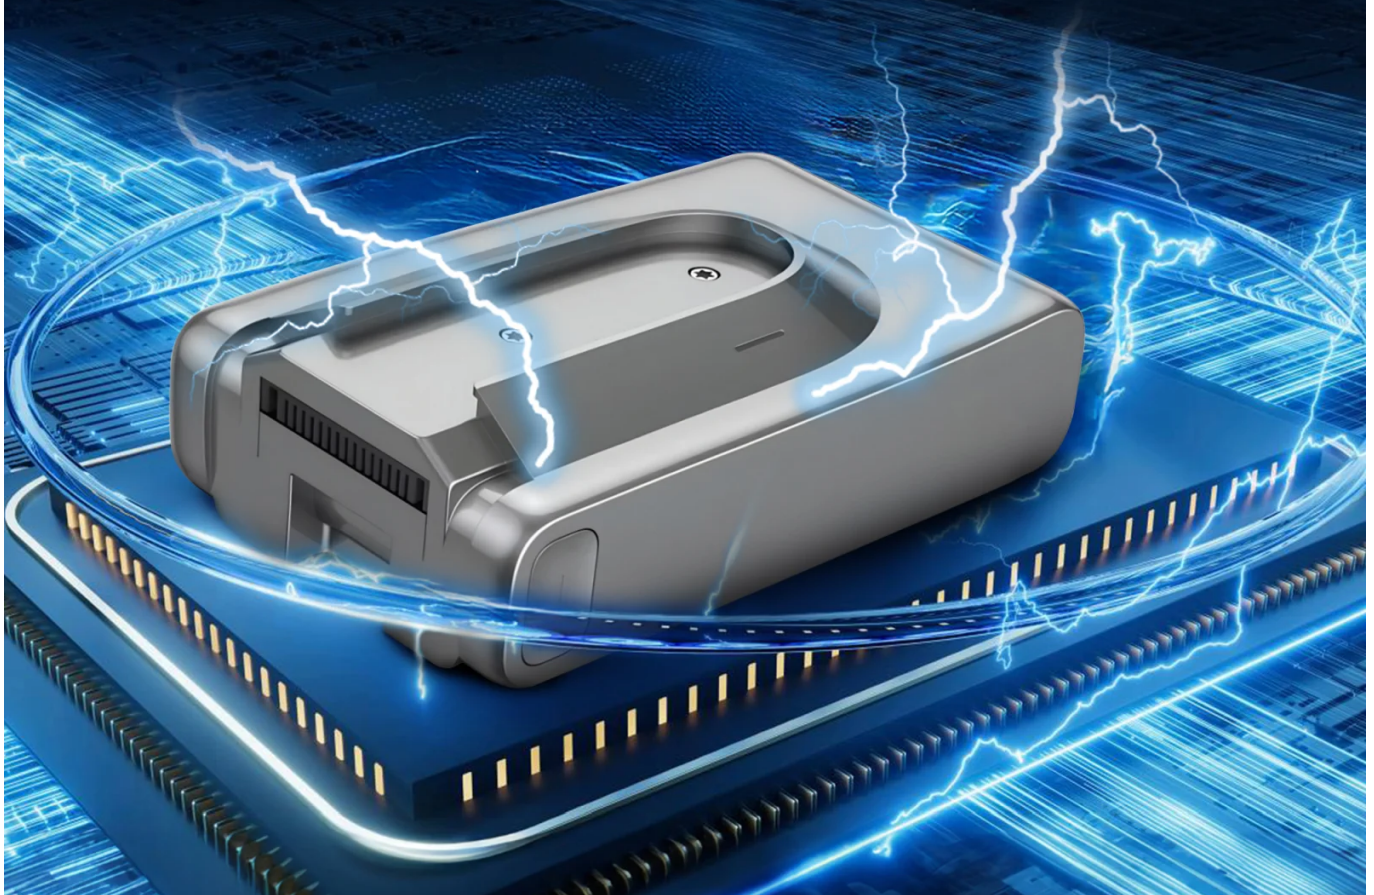

Overheat and
short-circuit
protection

Stable and safe
operation

Extends device
life

Safety and reliability

Modern Battery Management System (BMS) protects the device against overheating, overloading, and short-circuiting.

Easy replacement – quick return to work

Hassle-free installation – perfect fit.
