Manufacturer: EXTRALINK

Referention number: DNXGHHOMGRMMIL

Information:

The Dreame vacuum cleaner battery 25.2V 2500mAh is an efficient Li-ion battery that restores full suction power and extends the device's operating time. It provides longer cleaning sessions without frequent charging, which is especially useful on larger surfaces. The high-quality workmanship translates into durability, safety and reliable performance. It is a practical solution that improves the vacuum cleaner's efficiency and allows it to be quickly restored to full working order.

Full product description

Dreame vacuum cleaner battery

Increase the power of your Dreame vacuum cleaner with a new 25.2V 2500mAh battery. By replacing the battery, you'll get **longer run time** and greater efficiency during daily cleaning. **Dreame battery** is a great choice to enjoy reliable performance of your device for a long time.

Powerful battery for Dreame vacuum

V11 / V12 / V11SE / V12 Pro / V16 – 25.2V 2500mAh

Restore the full power of your vacuum cleaner!

A new 2500 mAh battery guarantees longer runtime, stable performance, and maximum suction power.

Longer operating time

With a capacity of **2500mAh**, the **Dreame battery** provides longer autonomy for the vacuum cleaner. The new battery allows for longer cleaning without a charging interval, which is especially important for large areas. This makes **the Dreame vacuum cleaner** even more efficient and economical.

EXTRA LINK ENERGY

2500
mAh

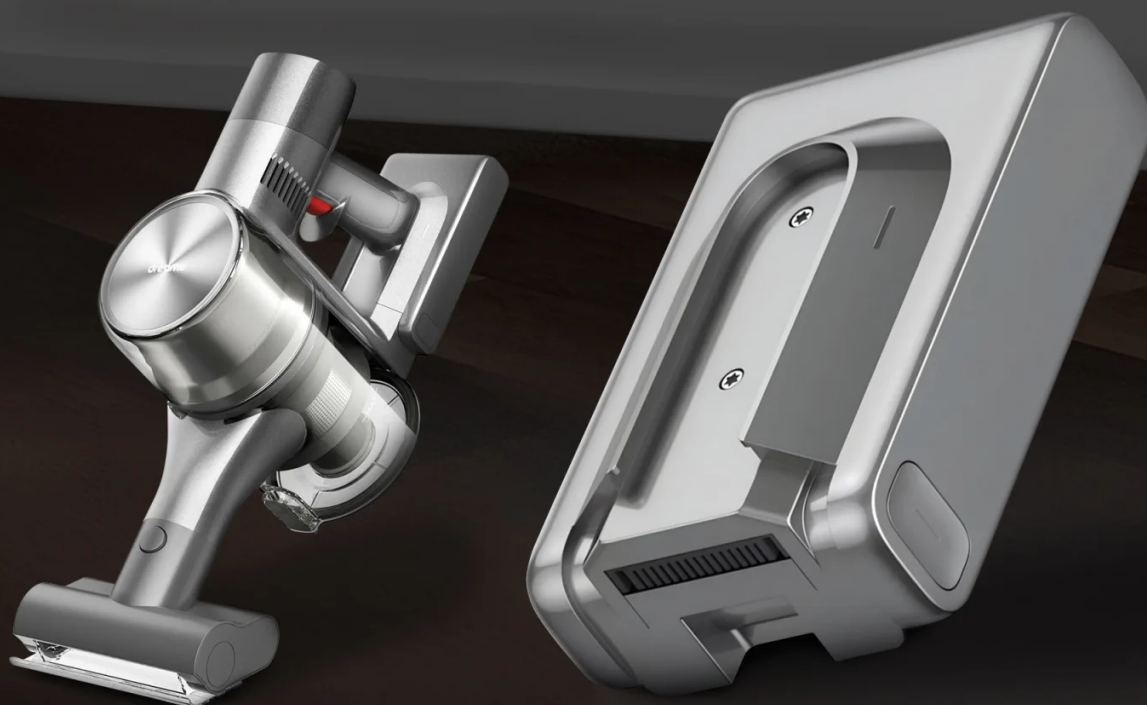

Capacity

25.2 V

Voltage

Li-ion

Battery type

High quality workmanship

The battery is designed for long-lasting performance. **The Dreame 25.2V battery** is made of materials that ensure safe use and high durability. Thanks to **Li-ion** technology, you are assured that the battery will work effectively for a long time.

Safety and reliability

A modern energy management system (BMS) protects the device from overheating, overloading, and short circuits.

A few reasons to replace the battery

More vacuum power - the new battery restores full suction power for more efficient removal of dirt and dust from various surfaces.

Better performance - with the new battery, the running time of the device is significantly increased, allowing you to clean more area without a charging interruption.

Improved safety - the old battery can lead to overheating, which can damage the equipment, while the new battery reduces this risk.

Simple replacement - with the easy replacement of the battery, you can quickly restore the device to full performance, saving time and energy.

Benefits of battery replacement

**Longer robot
runtime**

**Full power
and efficiency**

**Protection
against
overheating and
short circuits**

**Stable and safe
operation**

**Extending the
device's life**

Easy replacement – quick return to work

Hassle-free installation – a perfect fit.
