Information:

The E99 Pro drone is a great choice for beginners and more advanced users. Its lightweight, durable construction and built-in gyroscope ensure stable and precise flight. The set includes three batteries, which allow you to fly for up to 45 minutes, and the "plug and play" system makes them quick and easy to replace. The FPV camera enables live viewing on your smartphone and recording photos and videos in high quality. An intuitive controller, automatic take-off, landing and return, foldable arms, and three speed modes make it comfortable to use and easy to transport.

Full product description

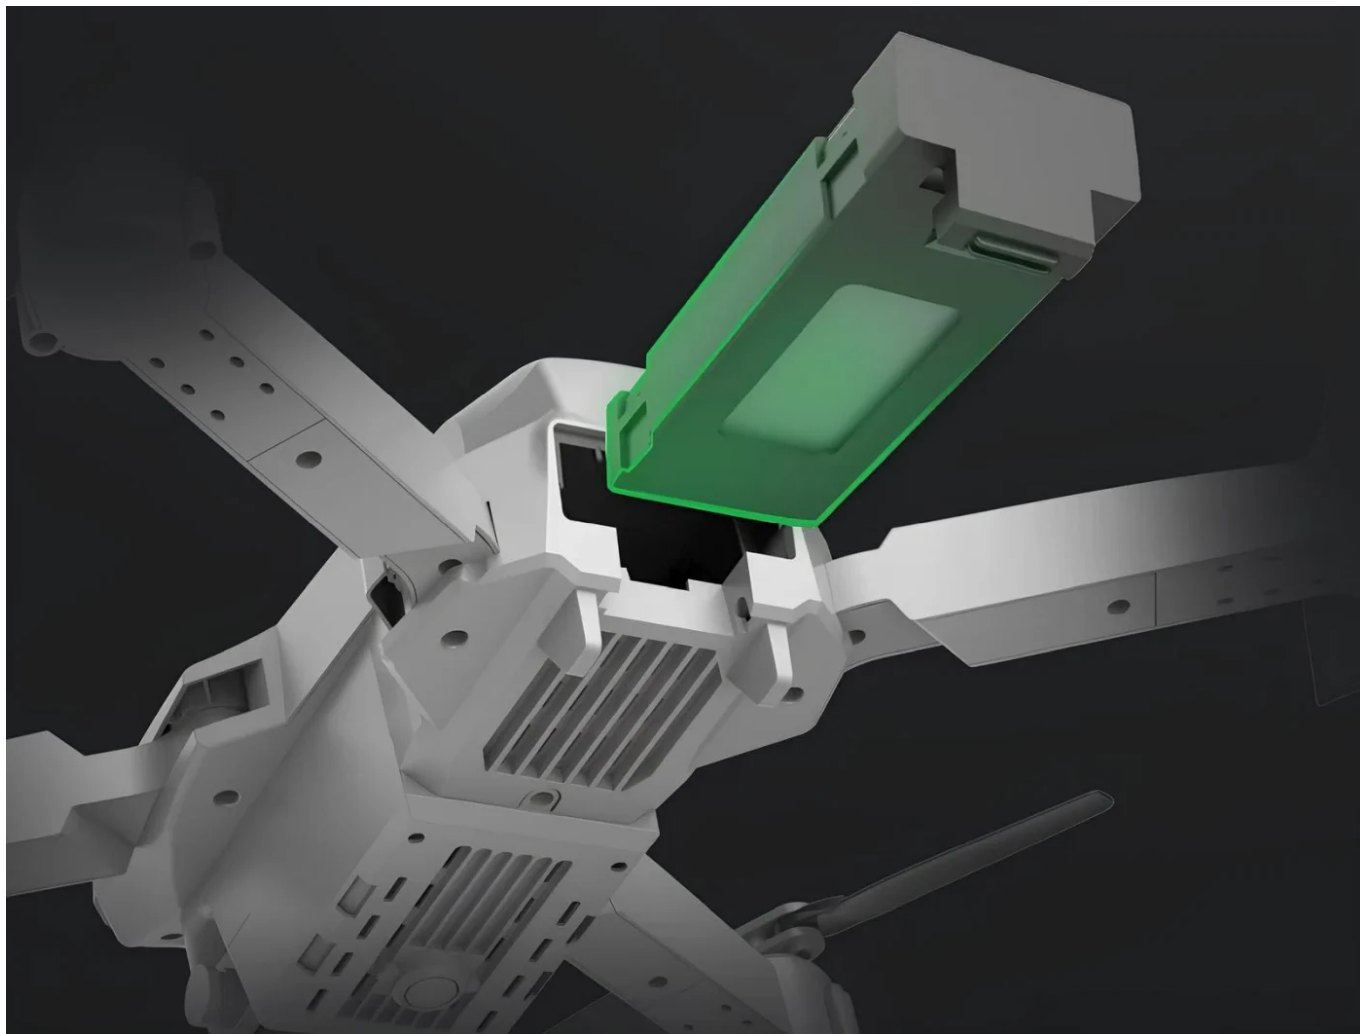

Ideal for Beginners

The **E99 Pro** drone is a great option for those getting started with drone flying. Thanks to its many advanced features, **learning to fly becomes easy and fun**. The sturdy and lightweight fuselage design ensures not only durability, but also ease of maneuverability.

Longer Fun with Three Rechargeable Batteries

Care has been taken to ensure that you can enjoy flying for as long as possible. The **E99 Pro drone comes with three rechargeable batteries** that allow you to fly for up to 45 minutes. This allows you to spend more time on aerial acrobatics and less time charging the batteries. The E99 Pro drone's "insert and use" battery system makes changing batteries quick and hassle-free. You don't have to worry about connecting cables or opening special compartments - just insert the battery and continue flying.

Flight Stabilization with Built-in Gyroscope

Smooth and stable flight is possible thanks to the advanced **gyroscope**, with which the E99 Pro drone is equipped. Thanks to this solution, the **control of the drone is extremely precise**, which is sure to be appreciated by both beginners and more advanced users.

Live View with FPV Camera

Capture amazing images and videos with the built-in camera with FPV (First Person View) transmission. Live video is sent directly to your smartphone, which you can easily connect to the drone using a dedicated app available for Android and iOS.

Intuitive Remote Control and Easy Operation

The remote control for the E99 Pro drone is designed along the lines of console game pads, making it extremely convenient and easy to use. With an auto take-off "take off" button and intuitive joysticks, full control of the drone is at your fingertips. In addition, the drone has quick buttons for takeoff, landing and return, making it significantly easier to operate.

Folding Arms - Easy to Carry

The E99 Pro drone has collapsible arms for easy carrying and storage. The process of folding and unfolding takes only a few moments, and in its folded state the drone takes up much less space, which is very convenient during transportation.

Three Speed Modes

Customize your flight speed with three speed modes. Whether you're just learning the basics or plan to perform more advanced maneuvers, the E99 Pro drone offers the right speed for every situation.

High Quality Camera

The E99 Pro drone is equipped with a state-of-the-art camera that allows you to take photos and record videos in high quality. The recorded images and videos are sent directly to a smartphone for instant viewing and editing.
