Summer ventilation	Yes
Package weight	6900 g
Suitable for room area up to	20 m2
Package depth	220 mm
Package height	265 mm
Package width	134 mm
Indication light	Yes
Number of speeds	2
Control type	Rotary
Placement options	Floor
Suitable for	Indoor
Product colour	Black
Type	Fan electric space heater
Product weight	6480 g

Full product description

Reliable and Stylish Thermal Fan EMERIO FH-106737.2

The **EMERIO FH-106737.2 fan heater** is an elegant and functional device that will be perfect for any interior. **In black, with a modern design**, it will fit perfectly into the decor of any room, **while offering high efficiency**.

Two-stage Power Control

EMERIO FH-106737.2 is equipped with a **2-stage power adjustment**, which allows you to adjust **the level of heating to suit your current needs**. There are **two settings** to choose from : **1000 W and 2000 W**, allowing us to **heat even larger spaces** quickly and efficiently . The fan function further aids **air circulation, ensuring even heat distribution**.

Safety and Comfort of Use

Taking care of the safety of users, EMERIO FH-106737.2 has an adjustable thermostat and overheat protection, **which eliminates the risk of damage** and ensures safe use. The automatic shut-off function in case the device is knocked over is an additional advantage, which makes us feel calm **even in the most unexpected situations.**

Ease of Portability

Thanks to its convenient handle, **the EMERIO FH-106737.2 thermal heater** is easy to carry, **making it ideal for both home and office use.** The ability to move the device quickly means that we can enjoy comfortable warmth **exactly where we need it.**
