Full product description

Pigtail SC/APC SM 900UM G.657A 1.5M

Pigtail Extralink with **SC/APC** connector is made on a **single-mode G.657A** fibre dedicated for **FTTx** technology. This fiber is characterized by **reduced bending radius** without increasing attenuation. This is a very important feature during the construction of FTTx networks due to the

large number of changes in the direction of the optical line and the small size of cabinets and distribution boxes. Pigtail is used mainly in **client cable terminations** in sockets at the customer's and in **end switchgear element**.
