Manufacturer: EXTRALINK

Referention number: DNXGHJLLERMLOQ

Information:

Extralink PDU is a compact power strip for 1U rack cabinets, ideal for micro IT installations and organised power distribution in standing and wall-mounted cabinets. It offers 3 E/F-type sockets, a maximum load of 16A and power of up to 4000W, ensuring stable power supply for network devices. The universal Schuko plug and 2-metre cable make installation easier in most European environments. The integrated double-pole switch with illumination and a cover increases convenience and operational safety. The power strip also provides surge, short-circuit, overload and thermal protection, safeguarding the connected components.

Full product description

Power strip 10" 1U 3 sockets with switch 2m

Horizontal 3-port power strip from Extralink with a 2-pole switch for quick on/off of connected devices. The strip is 1U high and has a mounting spacing that perfectly fits all 10-inch cabinets, both wall-mounted and floor-standing.

Features:
