Information:

The Extralink 12U 600x450 rack cabinet in black is a robust wall-mounted solution for the tidy installation of network, server and CCTV equipment in the 19" standard. Made from durable cold-rolled steel, with a welded frame and removable side panels, it provides durability and convenient service access. The front tempered glass door with a key lock protects the equipment against unauthorised access, while the option to fit a fan improves cooling. The cabinet has cable entry openings at the top and bottom, and the complete mounting kit makes quick, self-assembly easy.

Full product description

Extralink 12U 600x450 Black cabinet - Functional Solution for Network Equipment.

Cable clutter can make working and servicing equipment difficult. The **Extralink 12U 600x450 rack** cabinet in black is a way to **fully organize cables and equipment**, giving your network or server installation an aesthetically pleasing look and easy service access. The wall-mounted design saves space, and the sturdy construction from cold-rolled steel sheet guarantees the safety of stored equipment.

Secure Access Thanks to the Lock

Extralink 12U rack cabinet is equipped with a **front door** with tempered glass, lockable with a key lock. Such a solution effectively protects equipment from unauthorized access, which is especially important in offices, server rooms and other places with limited access. **The lock**

protects the equipment, and at the same time allows quick opening in case of service needs.

Professional locking rack cabinet

Protection, order and aesthetics in one.
Perfect for organising home spaces, offices and server rooms.

Easy Assembly In A Few Minutes

The Extralink 12U rack is **designed for wall mounting** and comes with a complete set of screws and instructions, allowing you to quickly assemble and fix the structure. Thanks to the well-thought-out design, the whole process is intuitive and does not require specialized tools or the help of a technician. Such a solution allows you to prepare the installation yourself in your home, office or server room

EASY ASSEMBLY IN JUST A FEW MINUTES

Thanks to clear instructions and a complete set of screws, assembling the cabinet is quick and intuitive.

You can easily do it yourself – no need to call a technician!

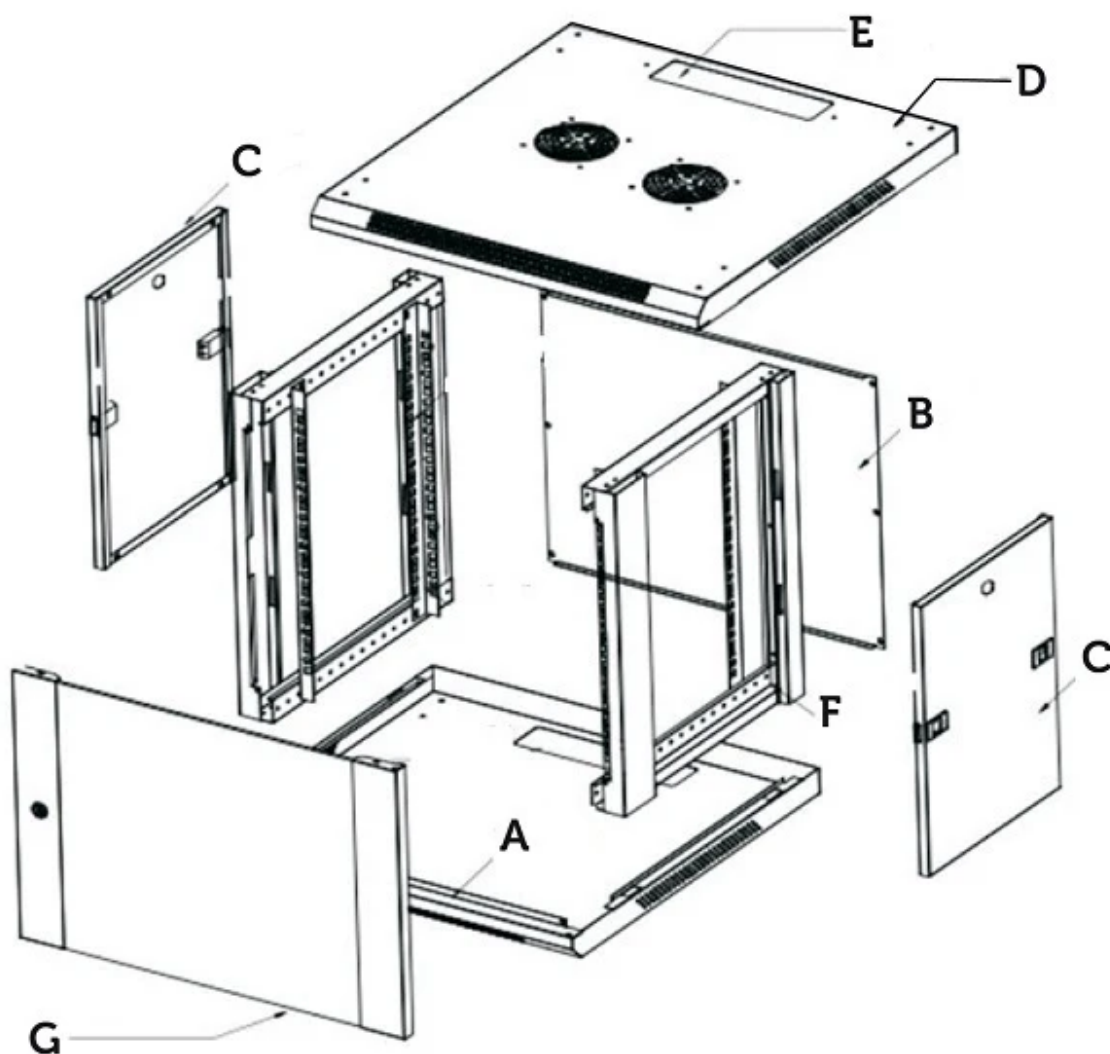

Solid Construction And Practical Details

The **Extralink 12U** rack is made of **cold-rolled steel sheet** for high strength and stability. The welded frame guarantees the rigidity of the entire structure, and removable side walls facilitate installation and service access. There are **two built-in cooling holes** in the ceiling of the cabinet, suitable for fan installation, which improves air circulation inside.
