Information:

Extralink 18U 600x600 is a black, wall-mounted rack cabinet designed for the organised installation of network and telecommunications equipment in offices and server rooms. Made from durable enamelled steel, it provides solidity and a long service life. The front door with tempered glass makes it easy to check the contents without opening it, while the removable side panels speed up access to cables and the installation of devices. The lock in the door and panels increases security, and the well-thought-out design supports ventilation and easy cleaning. The elegant design combines aesthetics with full functionality.

Full product description

Extralink 18U 600x600 Black | rack cabinet | wall mounted.

If you are looking for a solution that will guarantee orderly management of your network and data communications equipment, the Extralink 18U 600x600 black rack is the perfect choice. This product is designed for wall-mounting in offices and server rooms to save space while offering full functionality. Thanks to its sturdy construction and modern design, the cabinet will be perfect for both small and large network installations.

Robust design and durability

The Extralink 18U 600x600 black cabinet is made of durable enamel steel, which ensures its robustness and durability. **The front door has a pane of tempered glass**, which not only improves the aesthetics, but also allows you to easily monitor the interior of the cabinet without opening it. This makes the product not only functional, but also resistant to mechanical damage.

Protection, order and aesthetics in one.
Perfect for organising home spaces, offices and server rooms.

Easy installation and convenient access to cables

The **wall-mounted** rack allows for quick installation, which is crucial in server rooms or offices. **Removable side panels** make it easy to access cables and install additional equipment, reducing setup time. For maintenance, removing the side panels allows easy access to every component inside.

EASY ASSEMBLY IN JUST A FEW MINUTES

Thanks to clear instructions and a complete set of screws, assembling the cabinet is quick and intuitive.

You can easily do it yourself – no need to call a technician!

Aesthetic design and functionality

With its sleek black design, the cabinet will fit perfectly into any office or server room. The product features a glass front door, which gives a modern look and increases functionality, allowing you to quickly view the interior of the cabinet without having to open it. This is especially useful if you frequently monitor the status of your equipment.

Safety features and ease of maintenance

The product is equipped with **a front door key lock** and locks on the side panels, which guarantees additional security for stored equipment. In addition, **the ease of cleaning** both inside and outside the cabinet allows for long-term use without worrying about dirt. The cabinet's design also allows for optimal ventilation, which minimizes the risk of overheating equipment.

Large selection of Extralink server racks

Adapt the cupboard to your needs!
