Referention number: DNXGFQORMRMNJ

Information:

The Extralink 18U 600x600 rack cabinet in grey is a solid wall-mounted solution for organising IT, telecommunications and network equipment in an office, server room or home. Made of durable, enamelled steel, it provides stability and an attractive appearance. The 19" format and 18U height allow convenient mounting of servers, switches and other devices, as well as easy cable management. The tempered glass door lets you monitor the interior without opening it, while the removable side panels make servicing and installation easier. A key lock in the door and side panels increases security, and the CE certificate confirms compliance with European standards.

Full product description

If you're looking for a professional rack to help you organize your IT, telecommunications and networking equipment, **the Extralink 18U 600x600 gray rack** is an excellent choice. Mounted on the wall, it is ideal for offices, server rooms and even at home for space-saving and convenient use. Thanks to high-quality materials, the cabinet is durable, aesthetically pleasing and ensures the safety of stored equipment.

HOME NETWORK UNDER CONTROL

order begins with organisation

Optimal space for IT equipment

Extralink 18U 600x600 gray cabinet offers space ideal for storing servers, switches and other network equipment. The 18U height and 19" format allow you to safely and conveniently place your equipment. This makes it easy to manage cables and avoid clutter in the cabinet.

Professional locking rack cabinet

Protection, order and aesthetics in one. Perfect for organising home spaces, offices and server rooms.

Stable metal construction

The cabinet is **made of sturdy enameled steel**, ensuring strength and stability even when fully loaded. **The front door with tempered glass** is both durable and aesthetically pleasing, allowing you to quickly view the interior without having to open the cabinet. This gives you full control over the equipment and allows you to monitor its operation in real time.

EASY ASSEMBLY IN JUST A FEW MINUTES

Thanks to clear instructions and a complete set of screws, assembling the cabinet is quick and intuitive.

You can easily do it yourself – no need to call a technician!

Easy installation and service access

The product is **wall-mountable**, saving space in the office or server room. **Removable side panels** facilitate cable access and the ability to quickly service and install equipment. The cabinet is designed to simplify the configuration and maintenance process as much as possible.

Safety and security of equipment

The rack cabinet is equipped with **a key lock on the front door** and additional locks on the side panels, ensuring full security for your stored equipment. So you can be sure that your equipment is protected from unauthorized access. The cabinet meets European safety standards, as confirmed by the CE certificate.

Large selection of Extralink server racks

Adapt the cupboard to your needs!
