Price: **36.90 zł** gross / 30.00 zł net

Manufacturer: EXTRALINK

Referention number: DNXEHNUEKRR

Information:

The EXTRALINK PLC 1:16 fibre optic splitter is a passive component for FTTH networks, enabling symmetrical splitting of the optical signal without the use of active devices. It is equipped with SC/APC connectors at the input and output, as well as a thin 0.9 mm pigtail cable, which makes routing and cable management easier. The compact steel box housing allows convenient installation in patch panels and fibre optic closures. The product is packed in blisters that protect the cables from tangling.

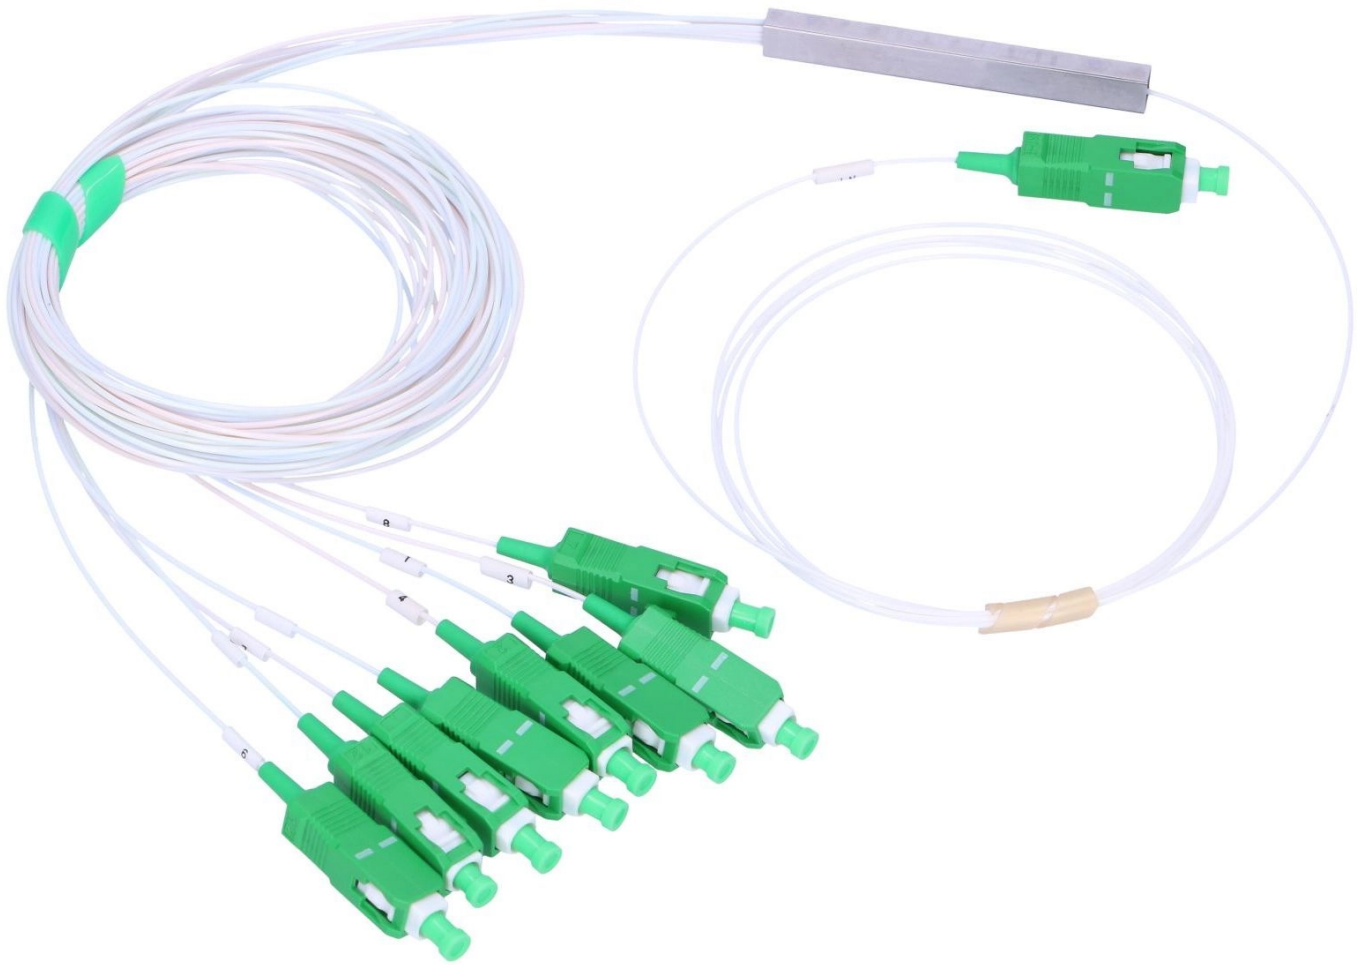

Product features

Material	Fiberglass
Package type	Blister
Easy to install	Yes
Product colour	Translucent
Connector gender	Male
Type	Cable splitter

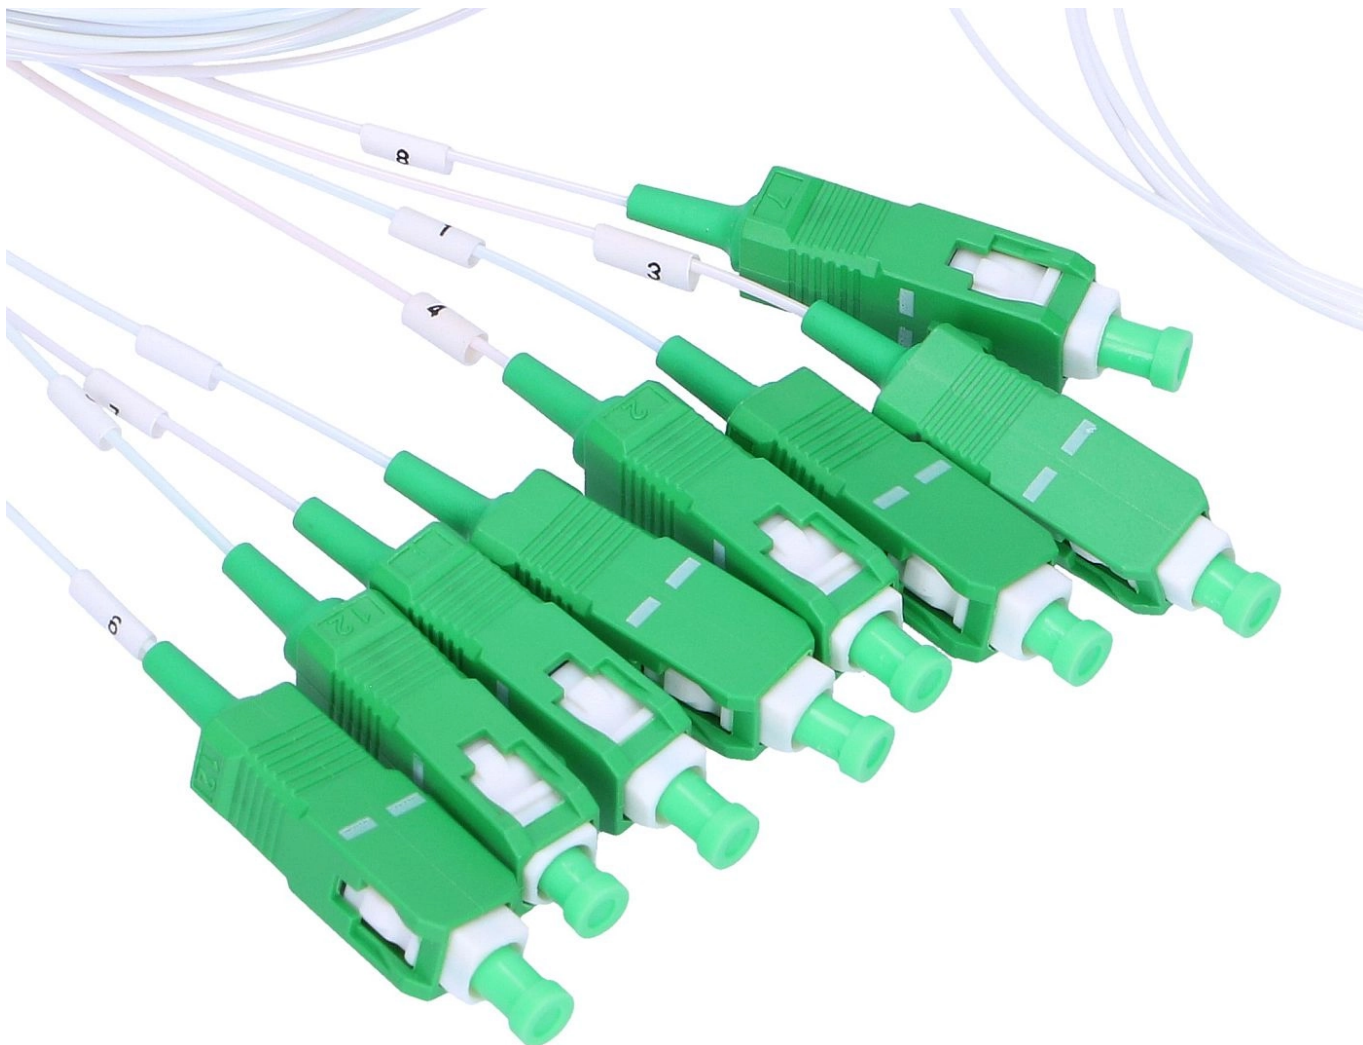

Full product description

EXTRALINK PLC 1:16 0.9mm fiber optic splitter with SC/APC connectors

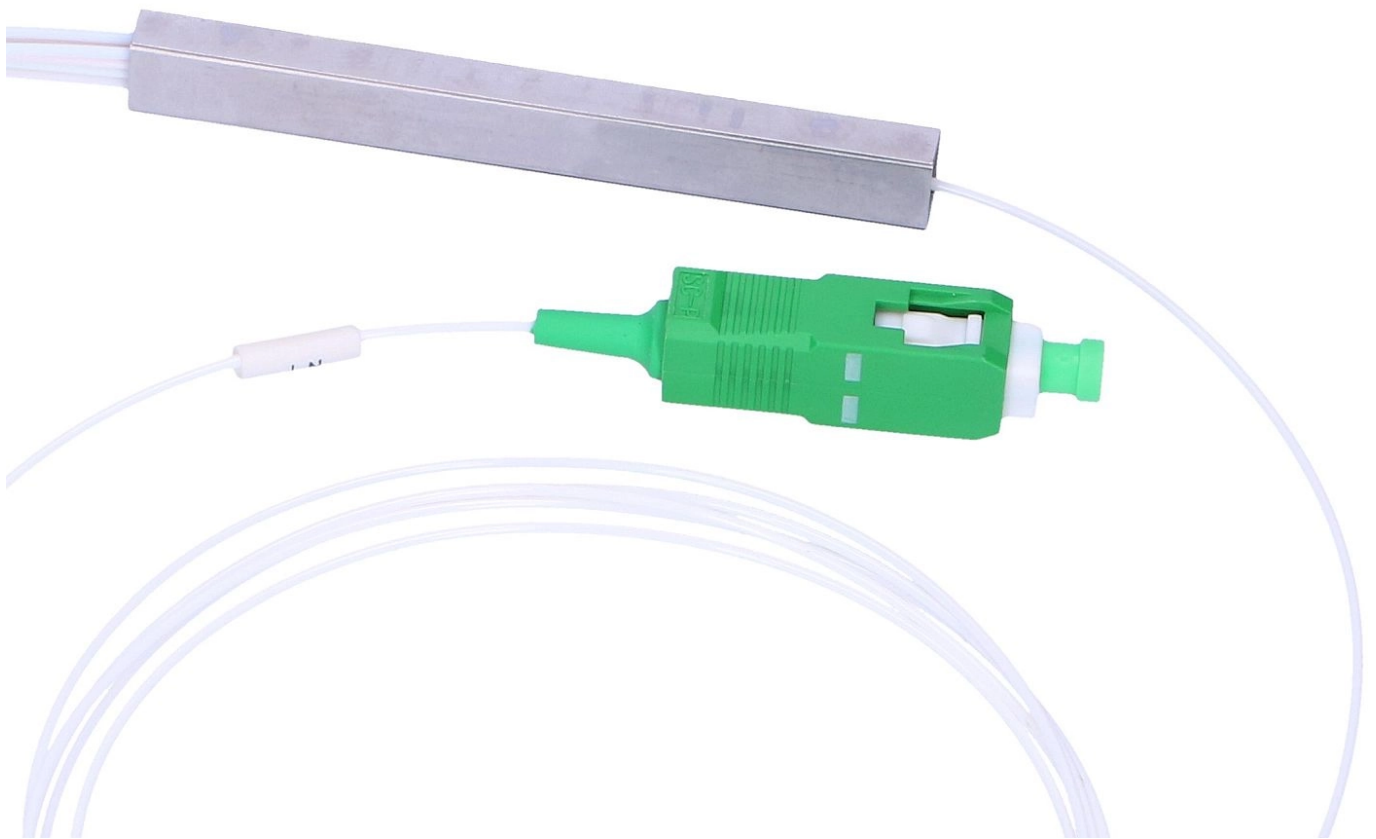

Fibre optic splitters are used in FTTH networks, where the Internet is delivered to customers by means of optical fibre. It is led from the server room to the client device without changing the transmission medium. This technology requires that the signal is distributed to the clients without using additional active devices.

Splitter PLC with symmetrical 1:16 power distribution with both input and output connectors. The compact steel box housing enables easy installation in switches and fiber optic couplers.

The Splitter is built on a thin 0.9mm pigtail cable, which makes it easy to install in various types of organizers.

The product is packaged in blister packs to prevent tangling of cables.
