Price: **72.79 zł** gross / 59.18 zł net

Manufacturer: EXTRALINK

Referention number: DNXFLNKQMRMJL

Information:

The EXTRALINK PLC 1:16 fibre optic splitter with SC/APC connectors is a passive component for FTTH networks, providing symmetrical signal splitting without the use of active devices. The compact steel box housing makes installation in fibre optic patch panels and closures easier, while the thin 0.9 mm pigtail cable allows convenient routing in organisers. Connectors at the input and output simplify installation, and the blister packaging protects the cables from tangling. Ideal for reliable distribution of fibre optic internet to multiple users.

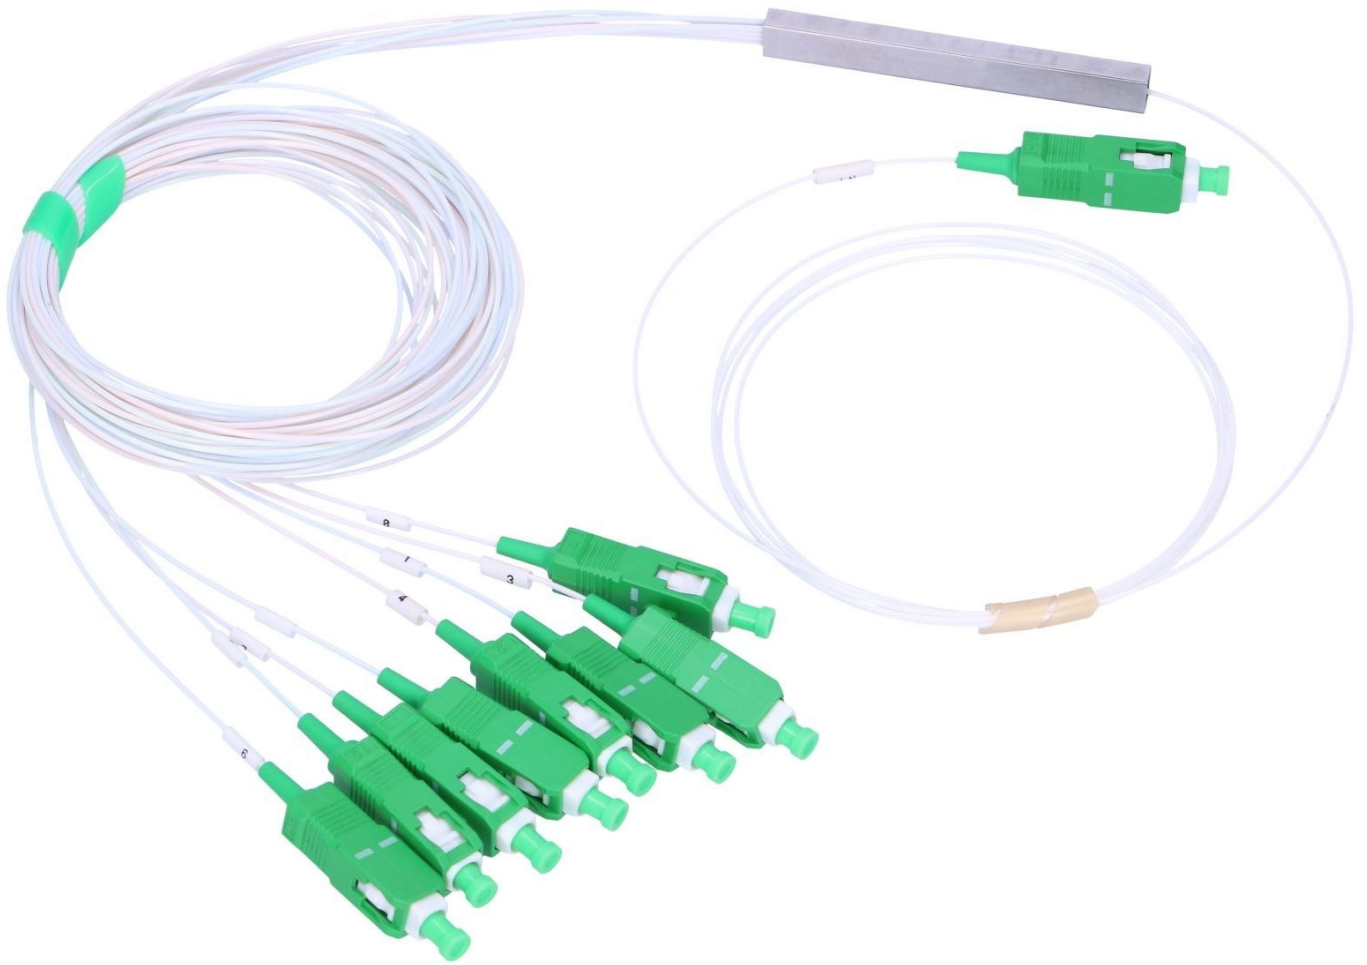

Product features

Connector(s)	17
Material	Polyvinyl chloride (PVC)
Number of connectors	17
Easy to install	Yes
Product colour	White
Connector gender	Male
Type	Cable splitter

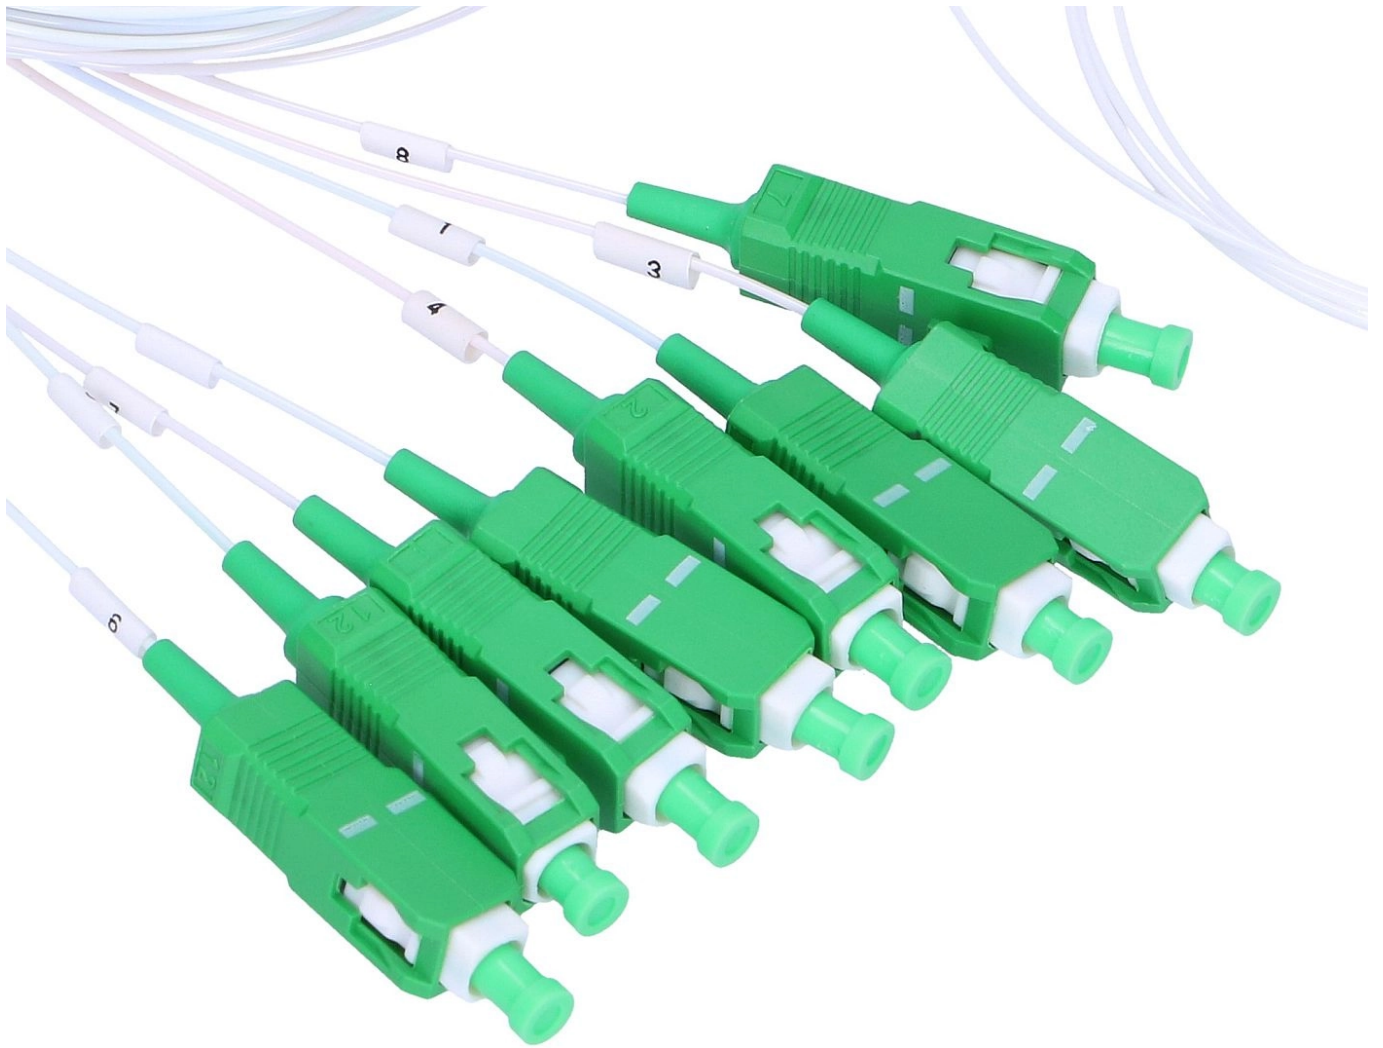

Full product description

EXTRALINK PLC 1:16 0.9mm fiber optic splitter with SC/APC connectors

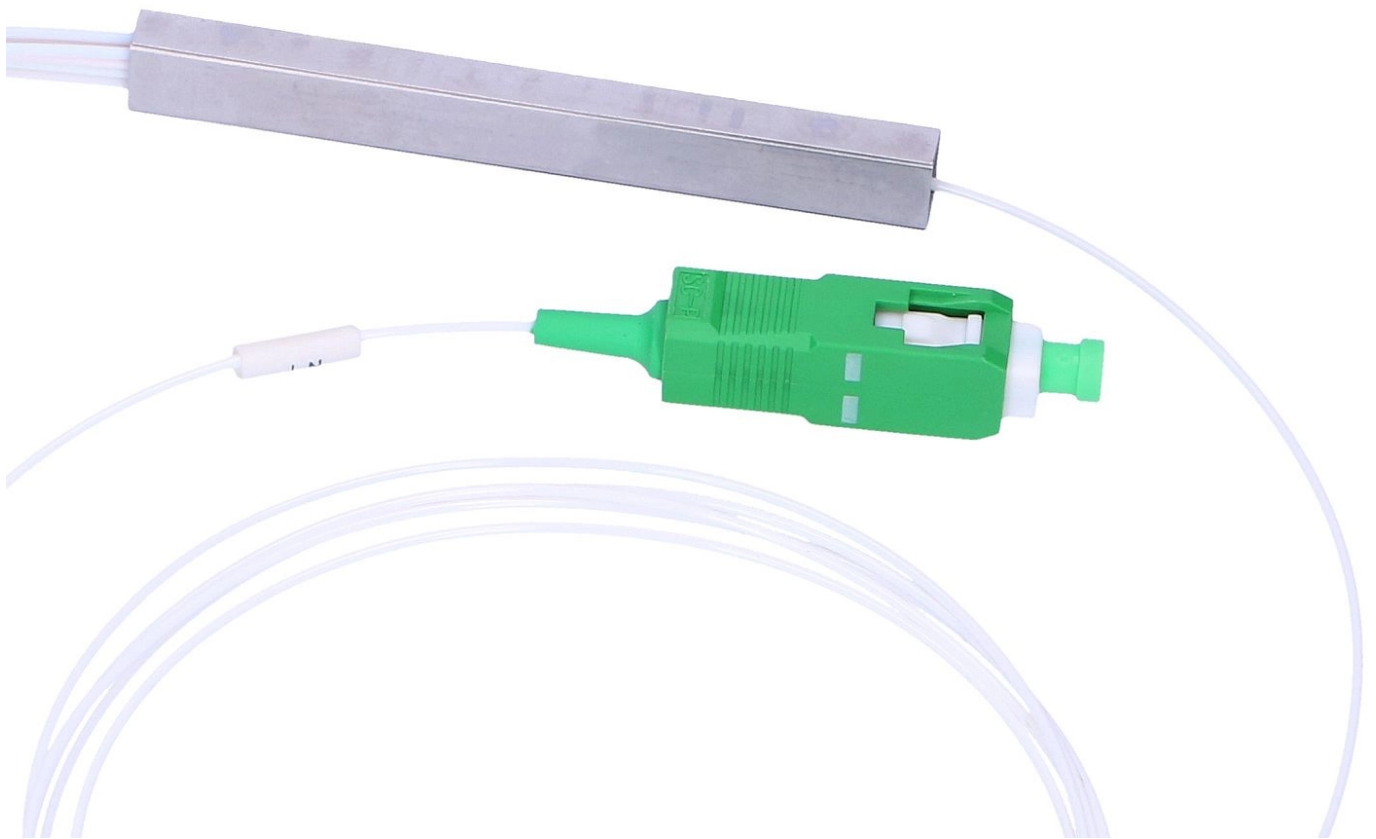

Fibre optic splitters are used in FTTH networks, where the Internet is delivered to customers by means of optical fibre. It is led from the server room to the client device without changing the transmission medium. This technology requires that the signal is distributed to the clients without using additional active devices.

Splitter PLC with symmetrical 1:16 power distribution with both input and output connectors. The compact steel box housing enables easy installation in switches and fiber optic couplers.

The Splitter is built on a thin 0.9 mm pigtail cable, which makes it easy to install in various types of organizers.

The product is packaged in blister packs to prevent tangling of cables.
