Price: **33.68 zł** gross / 27.38 zł net

Manufacturer: EXTRALINK

Referention number: DNXLISKEHS

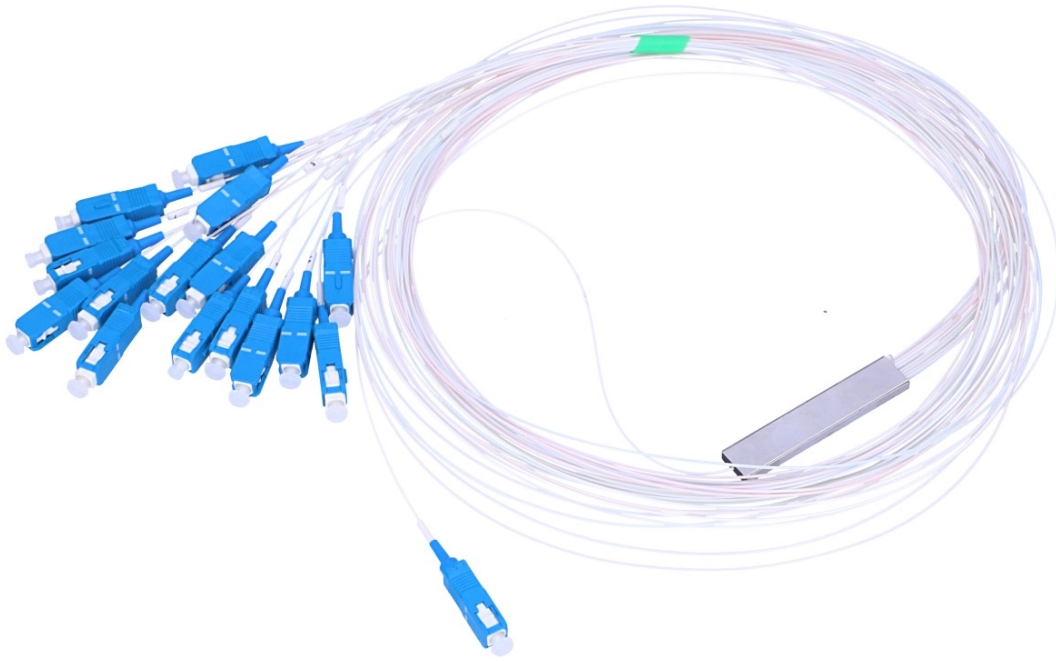

Information:

The EXTRALINK PLC 1:16 fibre optic splitter is a passive signal distributor for FTTH networks, enabling symmetrical power splitting without the use of active devices. Equipped with SC/UPC connectors on the input and outputs, as well as a compact steel box housing, it ensures convenient installation in patch panels and fibre optic closures. The thin 0,9 mm pigtail cable makes it easy to arrange in organisers, while the blister packaging protects against cable tangling. Ideal for efficient and neat installation of fibre optic networks.

Full product description

EXTRALINK PLC 1:16 0.9mm fiber optic splitter with SC/UPC connectors

Fibre optic splitters are used in FTTH networks, where the Internet is delivered to customers using optical fibre. It is led from the server room to the client device without changing the transmission medium. This technology requires that the signal is distributed to customers without using additional active devices.

Splitter PLC with symmetrical 1:16 power distribution with both input and output connectors. The compact steel box housing enables easy installation in switches and fiber optic couplers.

The Splitter is built on a thin 0.9 mm pigtail cable, which makes it easy to install in various types of organizers.

The product is packaged in blister packs to prevent tangling of cables.
