Price: **35.30 zł** gross / 28.70 zł net

Manufacturer: EXTRALINK

Referention number: DNXFLNKRERMMNH

Information:

EXTRALINK PLC 1:16 fibre optic splitter is a passive signal distributor for FTTH networks, providing symmetrical power splitting without the use of active devices. The model without connectors at the input and output has been made in a compact steel box housing, which makes installation in patch panels and fibre optic enclosures easier. The thin 0.9 mm pigtail cable allows convenient routing and cable management. The product is packed in a blister pack that protects the cables from tangling.

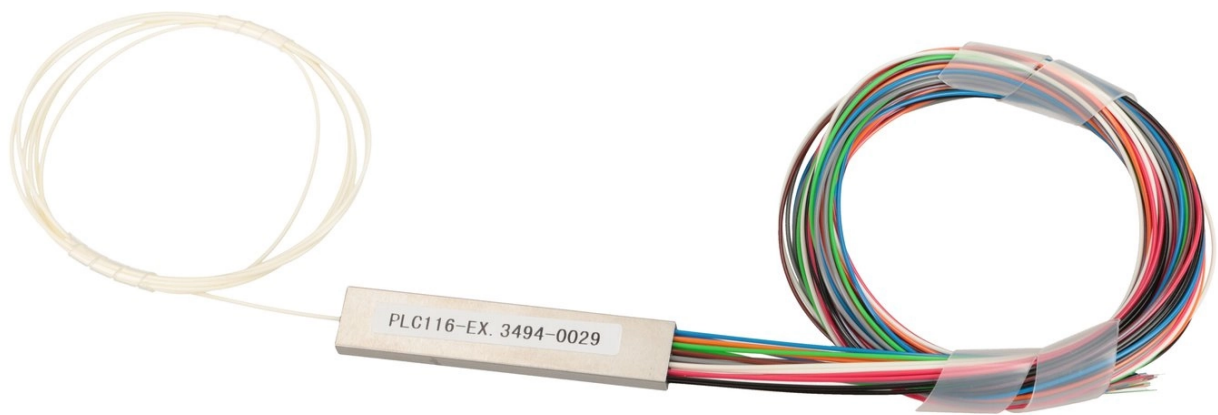

Product features

Material	Fiberglass
Package type	Blister
Easy to install	No
Connector gender	No
Type	Cable splitter

Full product description

EXTRALINK PLC 1:16 0.9mm fibre optic splitter without connectors

Fibre optic splitters are used in FTTH networks, where the Internet is delivered to clients using optical fibre. It is led from the server room to the client device without changing the transmission medium. This technology requires that the signal is distributed to the clients without using additional active devices.

Splitter PLC with symmetrical 1:16 power distribution without both input and output connectors. The compact steel box housing enables easy installation in switches and fiber optic couplers.

The Splitter is built on a thin 0.9 mm pigtail cable, which makes it easy to install in various types of organizers.

The product is packaged in blister packs to prevent tangling of cables.
