Full product description

EXTRALINK Fiber Optic Splitter FBT 1:2 10:90 0.9mm with SC/UPC connectors

Fiber optic splitters are used in FTTH networks, where the Internet is delivered to customers by means of an optical fibre led from the server room to the client's device without changing the transmission medium. The specificity of this technology requires that the signal is distributed to customers without using additional active devices.

FBT Splitter with asymmetric 1:2 power distribution with both input and output connectors. The compact steel box housing enables easy installation in switches and fiber optic couplers.

The Splitter is built on a thin 0.9mm pigtail cable, which makes it easy to install in various types of organizers.

The product is packaged in blister packs to prevent tangling of cables.
