Price: **30.33 zł** gross / 24.66 zł net

Manufacturer: EXTRALINK

Referention number: DNXEDIJMHRMLNN

Information:

The EXTRALINK FBT 1:2 35:65 fibre optic splitter is a passive signal distributor for FTTH networks, enabling asymmetric power splitting without the use of active devices. Equipped with SC/UPC connectors at the input and output and a compact steel box housing, it is ideal for use in patch panels and fibre optic enclosures. The thin 0.9 mm pigtail cable makes routing and cable management easier, while the blister packaging protects against cable tangling.

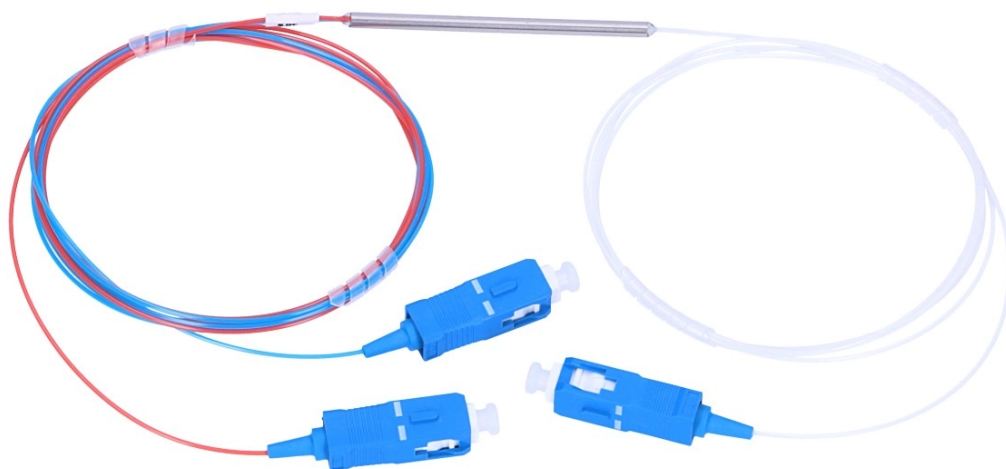

Product features

Connector(s)	3
Material	Polyvinyl chloride (PVC)
Number of connectors	3
Product colour	Blue
Type	Cable splitter

Full product description

EXTRALINK Fiber Optic Splitter FBT 1:2 35:65 0.9 mm with SC/UPC connectors

Fiber optic splitters are used in FTTH networks, where the Internet is delivered to the customers by means of an optical fibre led from the server room to the customer's device without changing the transmission medium. The specificity of this technology requires that the signal is distributed to the clients without using additional active devices.

FBT Splitter with asymmetrical 1:2 power distribution, with both input and output connectors. The compact steel box housing enables easy installation in switches and fiber optic couplers.

The Splitter is built on a thin 0.9 mm pigtail cable, so it can be easily installed in various types of organizers.

The product is packaged in blister packs to prevent tangling of cables.
