Price: **28.77 zł** gross / 23.39 zł net

Manufacturer: EXTRALINK

Referention number: DNXEDIJMERMLKQ

Information:

The EXTRALINK FBT 1:2 5:95 fibre optic splitter is a passive splitter for FTTH networks, enabling asymmetric signal splitting without the use of active devices. Equipped with SC/UPC connectors on both sides, it ensures convenient installation and quick connection. The compact steel box housing makes installation in patch panels and fibre optic closures easier, while the thin 0,9 mm pigtail cable allows for easy routing in organisers. The product is packaged in a blister pack, which protects the cables from tangling.

Product features

Connector(s)	3
Material	Polyvinyl chloride (PVC)
Number of connectors	3
Easy to install	Yes
Product colour	Blue
Connector gender	Male
Type	Cable splitter

Full product description

EXTRALINK Fiber Optic Splitter FBT 1:2 5:95 0.9 mm with SC/UPC connectors

Fiber optic splitters are used in FTTH networks, where the Internet is delivered to the customers by means of an optical fibre led from the server room to the customer's device without changing the transmission medium. The specificity of this technology requires that the signal is distributed to the clients without using additional active devices.

FBT Splitter with asymmetrical 1:2 power distribution, with both input and output connectors. The compact steel box housing enables easy installation in switches and fiber optic couplers.

The Splitter is built on a thin 0.9 mm pigtail cable, so it can be easily installed in various types of organizers.

The product is packaged in blister packs to prevent tangling of cables.
