Price: **26.08 zł** gross / 21.20 zł net

Manufacturer: EXTRALINK

Referention number: DNXEHLHUEKMN

Information:

The EXTRALINK PLC 1:2 fibre optic splitter is a passive signal splitter designed for FTTH networks, enabling symmetrical power splitting without the use of active devices. Equipped with SC/APC connectors on both sides, it ensures convenient installation and a stable connection. The compact steel box housing makes installation in patch panels and fibre optic closures easier, while the thin 0.9 mm pigtail cable allows for easy routing in organisers. The product is packaged in blisters that protect the cables from tangling.

Product features

Connector(s)	3
Number of connectors	3
Easy to install	Yes
Product colour	Green
Type	Cable splitter

Full product description

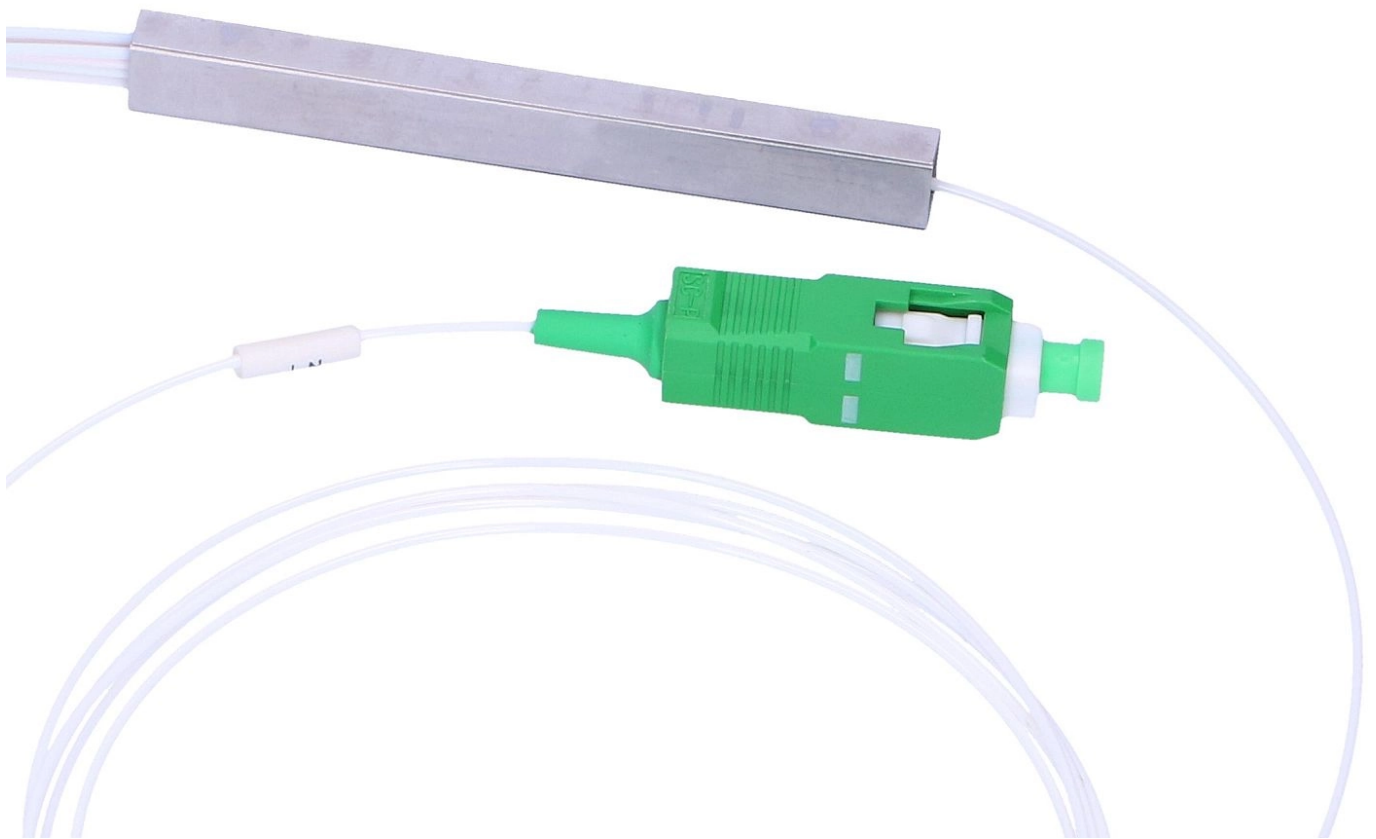

EXTRALINK PLC 1:2 0.9mm fiber optic splitter with SC/APC connectors

Fiber optic splitters are used in FTTH networks where the Internet is delivered to customers via fibre optic. It is led from the server room to the client's device without changing the transmission medium. This technology requires that the signal is distributed to the clients without using additional active devices.

Splitter PLC with symmetrical 1:2 power distribution with both input and output connectors. The compact steel box housing enables easy installation in switches and fiber optic couplers.

The Splitter is built on a thin 0.9 mm pigtail cable, which makes it easy to install in various types of organizers.

The product is packaged in blister packs to prevent tangling of cables.
