Price: **35.87 zł** gross / 29.16 zł net

Manufacturer: EXTRALINK

Referention number: DNXGFMPNFRMMLH

Information:

EXTRALINK PLC 1:32 is a fibre optic splitter for FTTH networks, enabling symmetrical signal splitting to 32 outputs without the use of active devices. The version without connectors on the input and output provides flexible installation and integration with the system. The ABS housing increases safety and durability, and the 2.0 mm patchcord cable makes it easy to arrange neatly in rack patch panels and external fibre optic cabinets. Ideal for reliable distribution of fibre optic signals in modern FTTH networks.

Product features

Connector(s)	33
Material	ABS
Number of connectors	33
Product colour	Black
Connector gender	No
Type	Cable splitter

Full product description

EXTRALINK PLC fiber optic splitter 1:32 2.0mm without connectors

Fibre optic splitters are used in FTTH networks, where the Internet is delivered to customers by means of optical fibre. It is led from the server room to the client device without changing the transmission medium. The specificity of this technology requires that the signal is distributed to the clients without using additional active devices.

Splitter PLC with symmetrical 1:32 power distribution without both input and output connectors. The ABS enclosure enables safe installation in rack switches or external fiber optic cabinets.

Splitter is built on a 2.0mm patchcord cable so it can be safely placed in switches and cabinets.
