Price: **30.85 zł** gross / 25.08 zł net

Manufacturer: EXTRALINK

Referention number: DNXEHLIUEKNK

Information:

The EXTRALINK PLC 1:4 fibre optic splitter is a passive component for FTTH networks, enabling symmetrical splitting of the optical signal without the use of active devices. Equipped with SC/APC connectors at the input and output, it ensures convenient installation and broad compatibility. The compact steel box housing makes installation in patch panels and fibre optic closures easier, while the thin 0.9 mm pigtail cable allows for easy routing in organisers. The product is packaged in a blister pack that protects the cables from tangling.

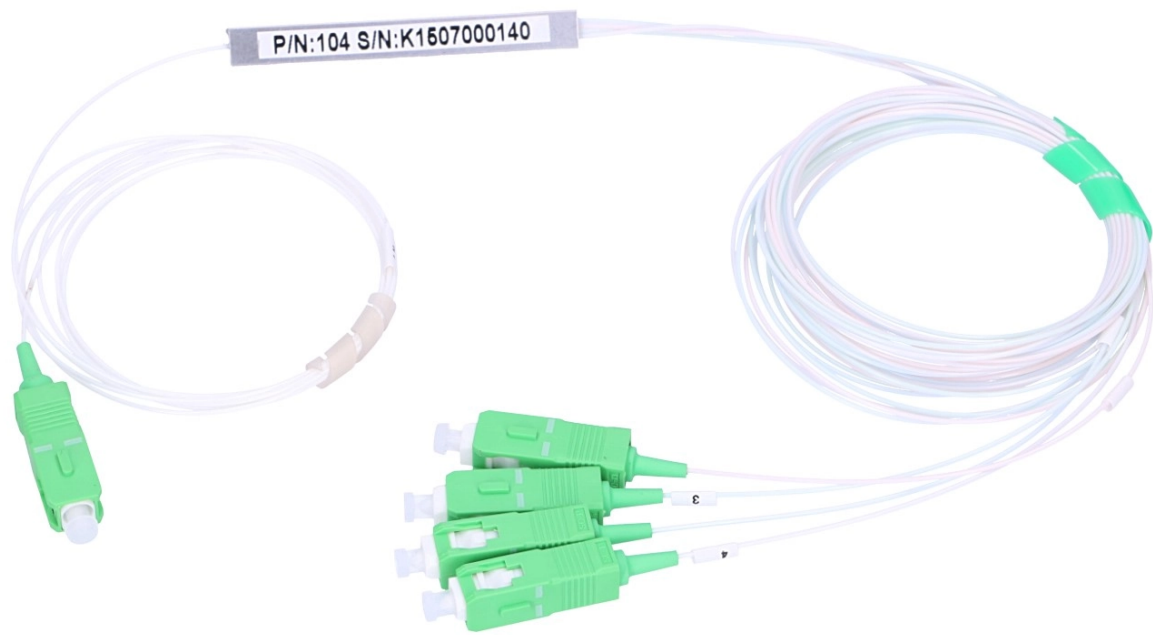

Product features

Cable length	1 m
Sheath material	Nylon/Polyvinyl Chloride (PVC)
Connector polish type	APC
Product colour	White
Connector 2 gender	Male
Connector 1 gender	Male
Fibre optic type	G.657.A1
Cable type	FTTH

Full product description

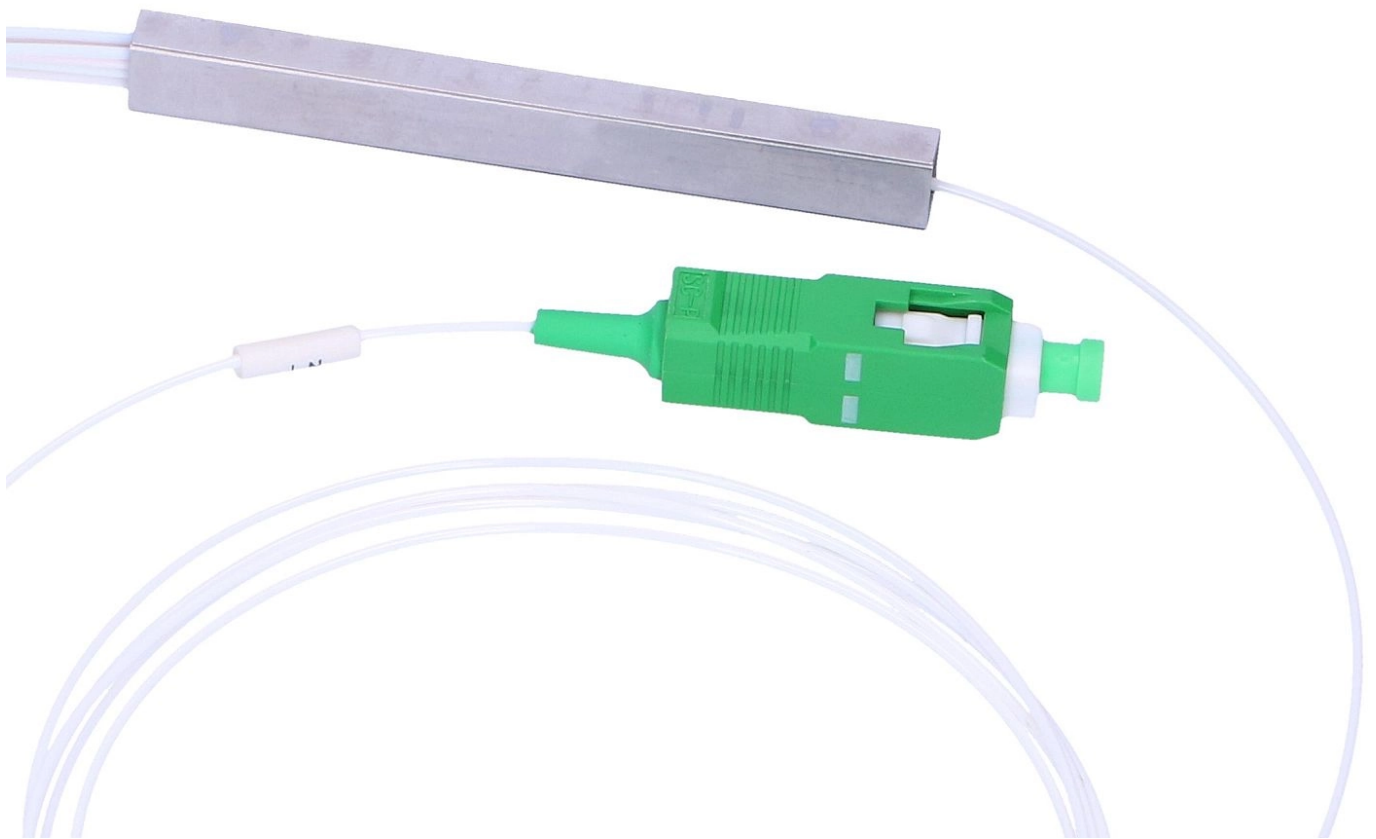

EXTRALINK PLC 1:4 0.9 mm fiber optic splitter with SC/APC connectors

Fiber optic splitters are used in FTTH networks, where the Internet is delivered to the customers by means of an optical fibre led from the server room to the customer's device without changing the transmission medium. This technology requires that the signal is distributed to the clients without using additional active devices.

Splitter PLC with symmetrical 1:4 power distribution, with both input and output connectors. The compact steel box housing enables easy installation in switches and fiber optic couplers.

The Splitter is built on a thin 0.9 mm pigtail cable, so it can be easily installed in various types of organizers.

The product is packaged in blister packs to prevent tangling of cables.
