Price: **14.83 zł** gross / 12.06 zł net

Manufacturer: EXTRALINK

Referention number: DNXXFKQLJRMIMI

Information:

The EXTRALINK PLC 1:4 fibre optic splitter intended for FTTH networks provides symmetrical signal power splitting without the use of active devices. The model without connectors on the input and output has a compact steel box housing, which makes installation in patch panels and fibre optic closures easier. Made on a thin 0.250 mm pigtail cable, it is convenient to arrange in organisers. Blister packaging protects the cables from tangling.

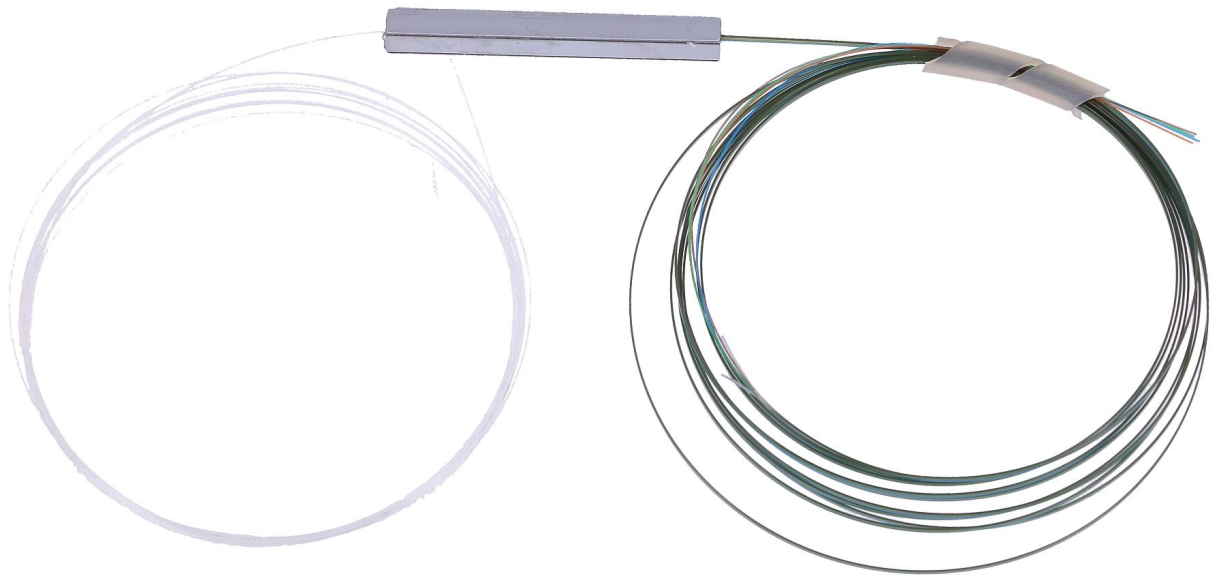

Product features

Connector(s)	5
Material	Polyvinyl chloride (PVC)
Number of connectors	5
Product colour	Silver
Type	Cable splitter

Full product description

EXTRALINK PLC 1:4 0.250mm fiber optic splitter without connectors

Fiber optic splitters are used in FTTH networks where the Internet is delivered to customers via fibre optic. It is led from the server room to the client's device without changing the transmission medium. The specificity of this technology requires that the signal is distributed to the clients without using additional active devices.

Splitter PLC with symmetrical 1:4 power distribution without both input and output connectors. The compact steel box housing enables easy installation in switches and fiber optic couplers.

The Splitter is built on a thin 0.250 mm pigtail cable, which makes it easy to install in various types of organizers.

The product is packaged in blister packs to prevent tangling of cables.
