Manufacturer: EXTRALINK

Referention number: DNXFENKSLRMNGN

Information:

EXTRALINK PLC 1:4 fibre optic splitter is a passive signal distributor for FTTH networks, enabling symmetrical power splitting without the use of active devices. It has input and output without connectors, a compact steel box housing and a thin 0.9 mm pigtail cable, which makes installation in patch panels, closures and organisers easier. The product is conveniently packed in blister packs that protect the cables from tangling.

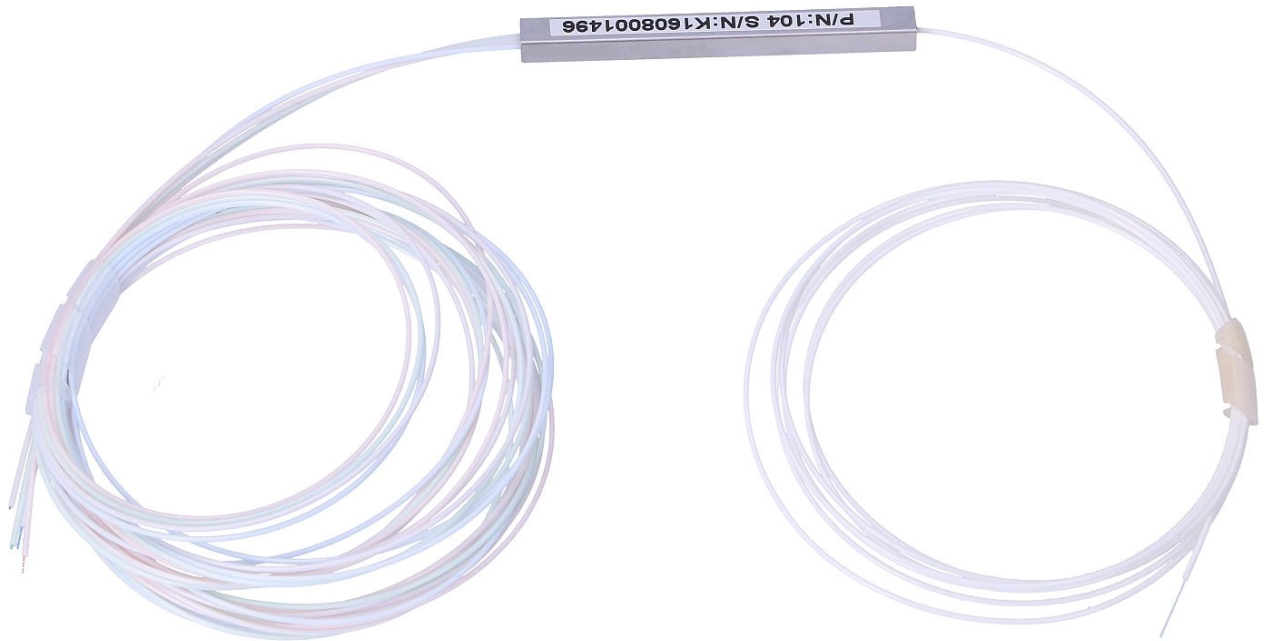

Product features

Material	Fiberglass
Package type	Blister
Easy to install	No
Product colour	White
Connector gender	No
Type	Cable splitter

Full product description

EXTRALINK PLC 1:4 0.9mm fiber optic splitter without connectors

Fiber optic splitters are used in FTTH networks where the Internet is delivered to customers via fibre optic. It is led from the server room to the client's device without changing the transmission medium. The specificity of this technology requires that the signal is distributed to the clients without using additional active devices.

Splitter PLC with symmetrical 1:4 power distribution without both input and output connectors. The compact steel box housing enables easy installation in switches and fiber optic closures.

The Splitter is built on a thin 0.9 mm pigtail cable, which makes it easy to install in various types of organizers.

The product is packaged in blister packs to prevent tangling of cables.
