Price: **14.76 zł** gross / 12.00 zł net

Manufacturer: EXTRALINK

Referention number: DNXFMHQRHRMNGP

Information:

The EXTRALINK PLC 1:4 fibre optic splitter is a passive solution for FTTH networks, enabling symmetrical signal splitting without the use of active devices. The model without connectors at the input and output has a compact steel box housing, which makes installation in patch panels and fibre optic closures easier. The thin 0.9 mm pigtail cable ensures convenient routing in organisers, while blister packaging protects the cables from tangling. It is a practical and reliable component of fibre optic installations.

Product features

Material	Polyvinyl chloride (PVC)
Product colour	White
Connector gender	No
Type	Cable splitter

Full product description

EXTRALINK PLC 1:4 0.9mm fiber optic splitter without connectors

Fiber optic splitters are used in FTTH networks where the Internet is delivered to customers via fibre optic. It is led from the server room to the client's device without changing the transmission medium. The specificity of this technology requires that the signal is distributed to the clients without using additional active devices.

Splitter PLC with symmetrical 1:4 power distribution without both input and output connectors. The compact steel box housing enables easy installation in switches and fiber optic couplers.

The Splitter is built on a thin 0.9 mm pigtail cable, which makes it easy to install in various types of organizers.

The product is packaged in blister packs to prevent tangling of cables.
