Full product description

Fibre optic splitter 1:64 PLC SC/APC 2.0MM 1.5M G657A ABS MODULE

Fibre optic splitters are used in FTTH networks, where the Internet is delivered to customers by means of optical fibre. It is led from the server room to the client device without changing the transmission medium. The specificity of this technology requires that the signal is distributed to the clients without using additional active devices.

Splitter PLC with symmetrical 1:64 power distribution with both input and output connectors. The ABS enclosure enables safe installation in rack switches or external fiber optic cabinets. Splitter is built on 2.0mm patchcord cable so it can be safely installed in switches and cabinets. The product is packed in blister packs to prevent tangling of cables.
