Price: **167.90 zł** gross / 136.50 zł net

Manufacturer: EXTRALINK

Referention number: DNXGFQKRERMMMJ

Information:

Extralink 1:64 PLC Splitter SC/APC 1,5m is a passive fibre optic splitter designed to divide optical power from one fibre into 64 outputs. It uses PLC technology, which provides high optical performance in a compact size. The model is equipped with SC/APC connectors, a cable 1,5 m long and 900 µm in diameter, and a durable steel box housing. The splitter stands out for its increased mechanical resistance, which translates into reliability and stable operation in fibre optic installations.

Product features

Connector(s)	65
Material	Steel
Number of connectors	65
Product colour	Steel
Connector gender	Male
Type	Cable splitter

Full product description

Extralink 1:64 PLC SC/APC Splitter 1.5m

SC/APC Splitter is a passive fiber optic component designed to divide the optical power coming from 1 fiber to 64. The cable has a **steel box** type housing, the outer diameter of the cable is 900µm and the length is 1.5m. **PLC splitters** allow to achieve high optical performance of the link with small size of the device itself due to planar technology. The **fiber** of the PLC 1:64 splitter is characterized by increased mechanical resistance.
