Price: **20.90 zł** gross / 16.99 zł net

Manufacturer: EXTRALINK

Referention number: DNXGFNLKMRMMMO

Information:

Extralink 1:8 PLC Splitter is a passive optical splitter designed to divide the signal power from one optical fibre into eight outputs. Thanks to PLC technology, it provides high optical performance in a compact size, which makes installation in fibre optic networks easier. The increased mechanical resistance of the fibre improves the durability and reliability of the device, making it a practical solution for efficient distribution of the optical signal.

Product features

Connector(s)	9
Material	ABS
Number of connectors	9
Connector gender	No
Type	Cable splitter

Full product description

Extralink 1:8 PLC Splitter

An **optical splitter** is a passive fiber optic component designed to divide the optical power coming from one fiber to eight. **PLC splitters** allow to achieve high optical performance of the link with small size of the device itself due to planar technology. The **fiber** of the PLC 1:8 splitter is characterized by increased mechanical resistance.
