Price: **37.27 zł** gross / 30.30 zł net

Manufacturer: EXTRALINK

Referention number: DNXEHKQUEKSK

Information:

The EXTRALINK PLC 1:8 fibre optic splitter is a compact solution for FTTH networks, enabling symmetrical signal splitting without the use of active devices. Equipped with SC/APC connectors on the input and output and a steel box housing, it works well in patch panels and fibre optic closures. The thin 0.9 mm pigtail cable makes routing and cable management easier, and the blister packaging protects the cables from tangling.

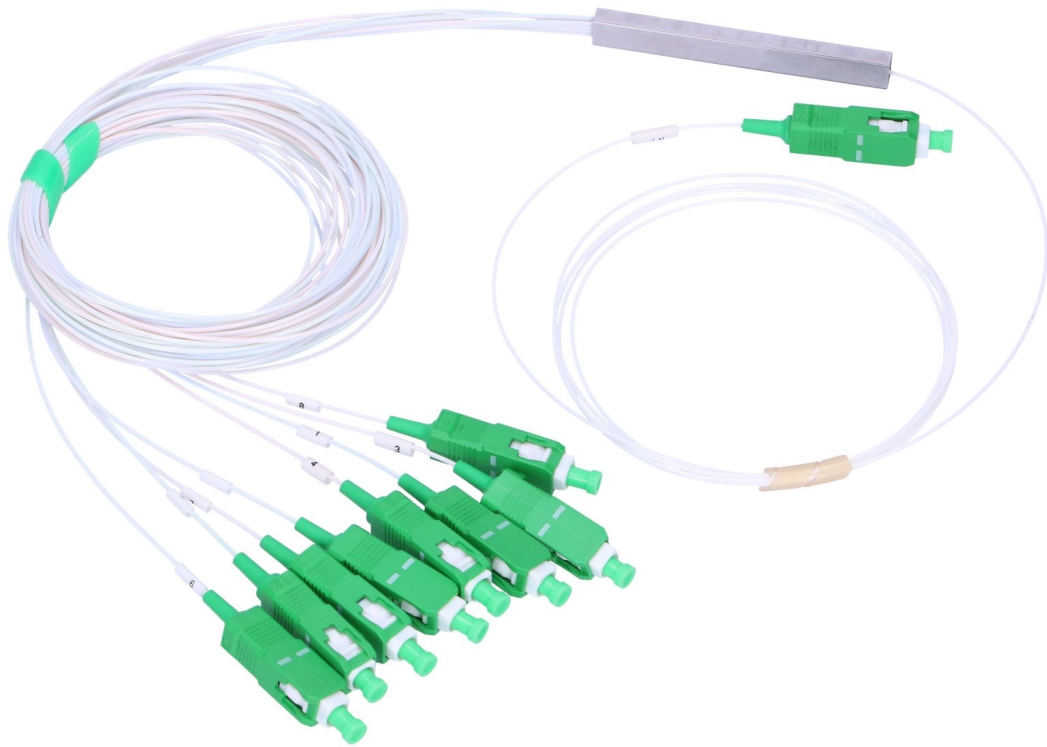

Product features

Connector(s)	9
Material	Polyvinyl chloride (PVC)
Number of connectors	9
Product colour	Green
Type	Cable splitter

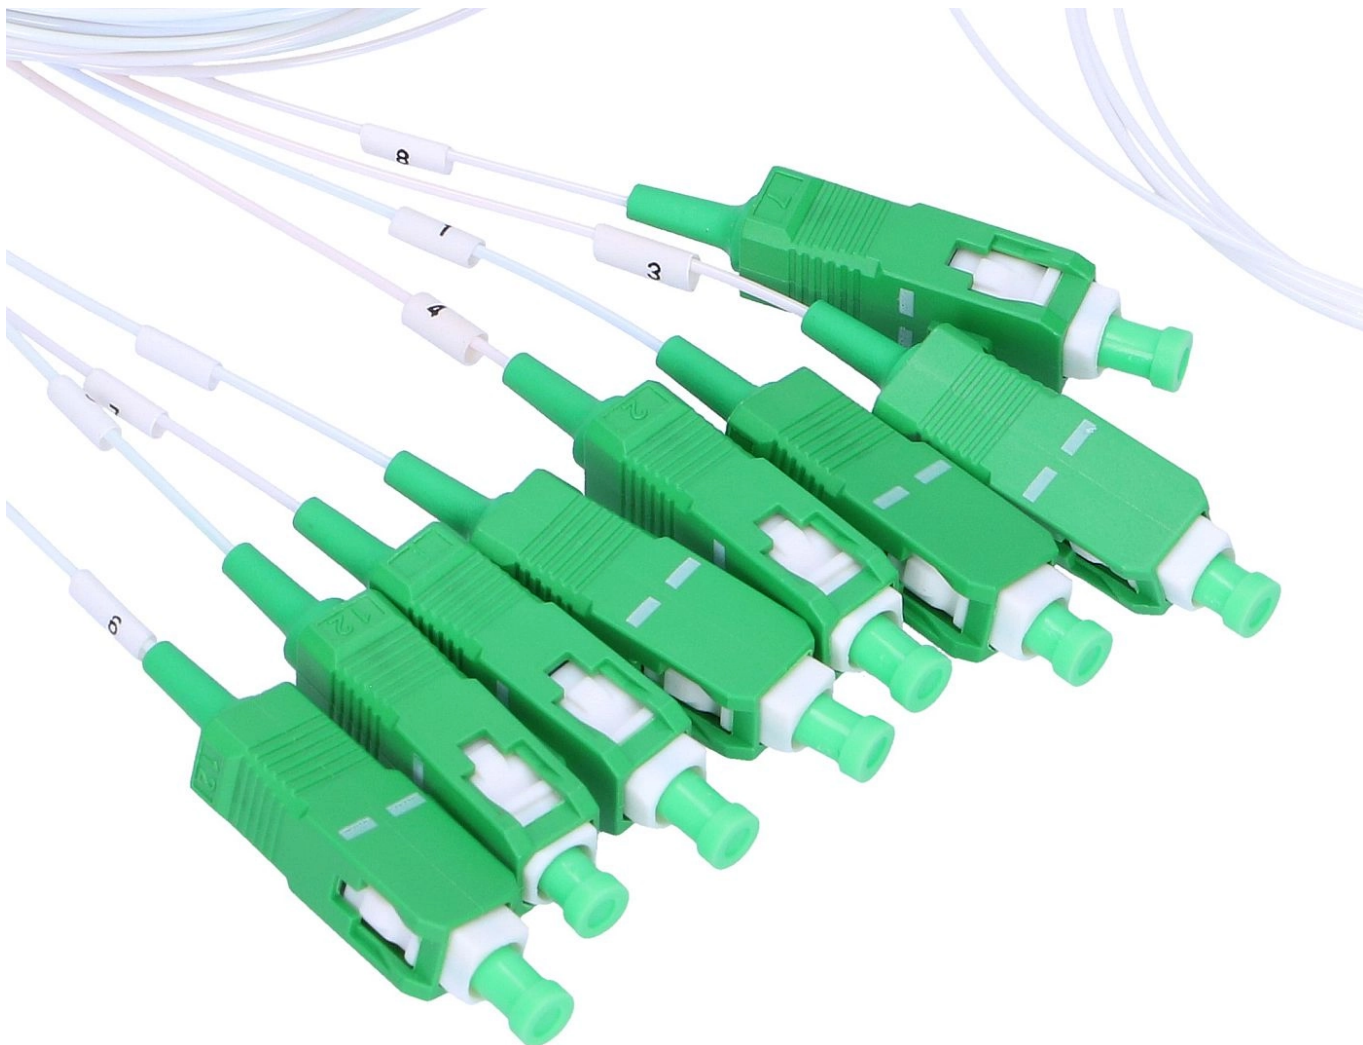

Full product description

EXTRALINK PLC 1:8 0.9mm fiber optic splitter with SC/APC connectors

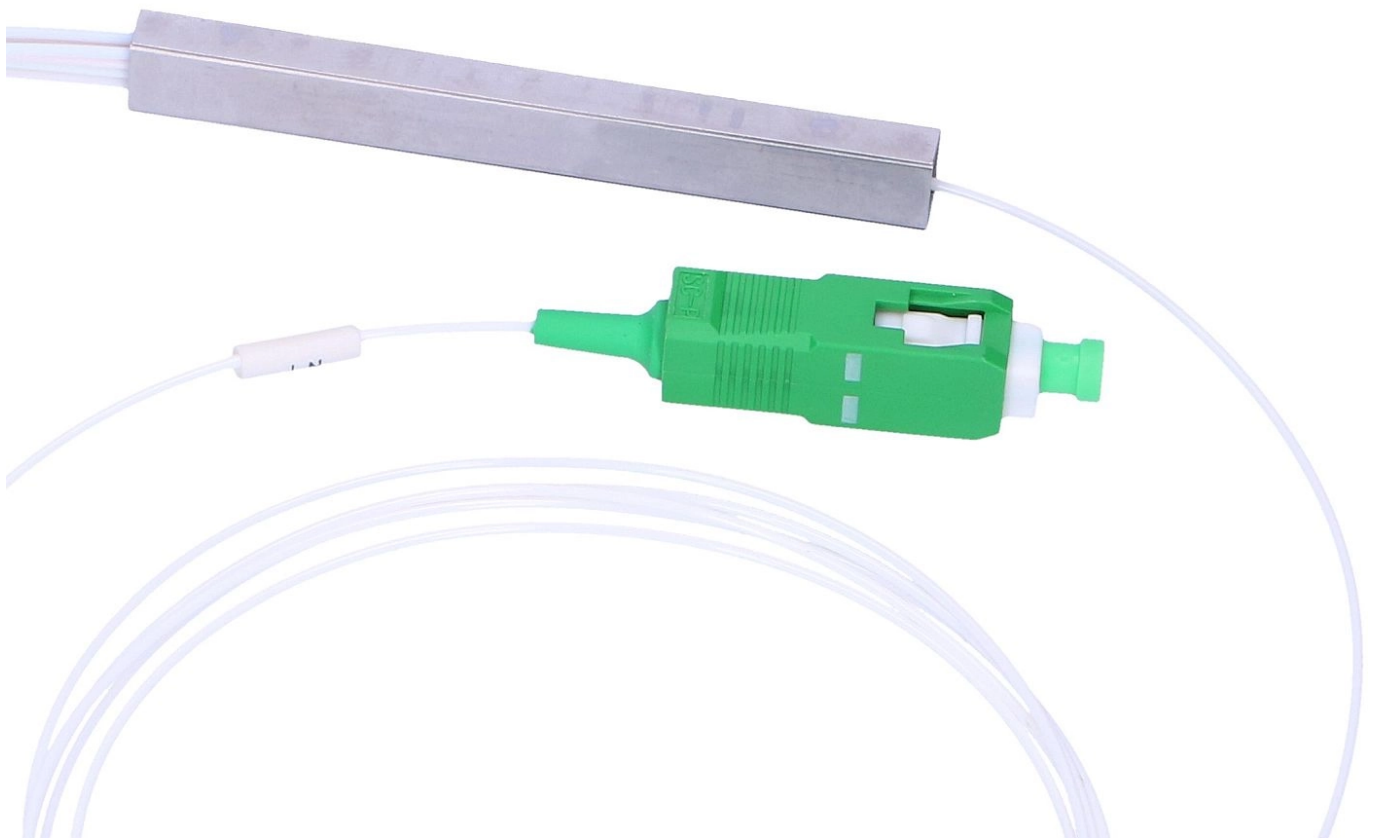

Fiber optic splitters are used in FTTH networks where the Internet is delivered to customers via fibre optic. It is led from the server room to the client device without changing the transmission medium. The specificity of this technology requires that the signal is distributed to the clients without using additional active devices.

Splitter PLC with symmetrical 1:8 power distribution with both input and output connectors. The compact steel box housing enables easy installation in switches and fiber optic couplers.

The Splitter is built on a thin 0.9mm pigtail cable, which makes it easy to install in various types of organizers.

The product is packaged in blister packs to prevent tangling of cables.
