Price: **24.60 zł** gross / 20.00 zł net

Manufacturer: EXTRALINK

Referention number: DNXEMHSKDOT

Information:

The EXTRALINK PLC 1:8 fibre optic splitter with SC/UPC connectors is a practical solution for FTTH networks, enabling symmetrical splitting of the optical signal without the use of active devices. The compact steel box housing makes installation in patch panels and fibre optic enclosures easier, while the thin 0.9 mm pigtail cable ensures convenient routing and cable management. Connectors on both the input and output increase versatility, and the blister packaging protects the cables from tangling.

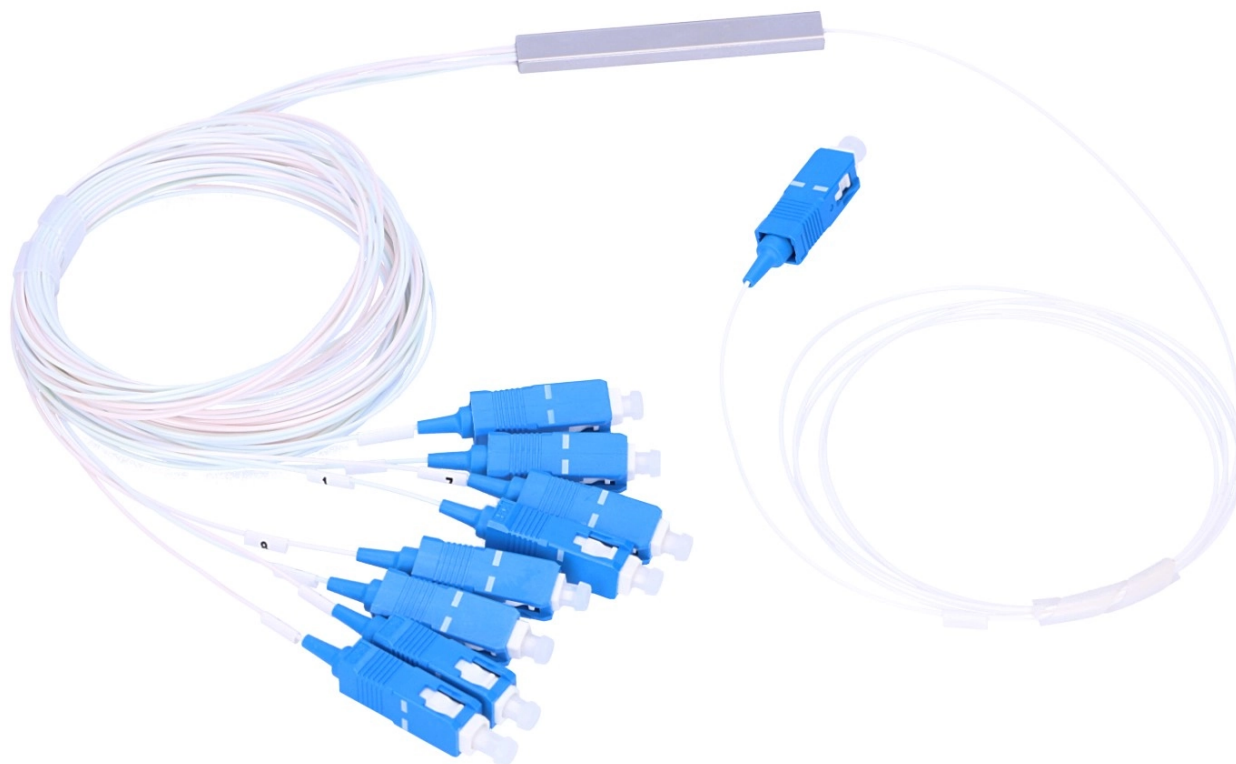

Product features

Connector(s)	9
Number of connectors	9
Product colour	Blue
Type	Cable splitter

Full product description

EXTRALINK PLC 1:8 0.9mm fiber optic splitter with SC/UPC connectors

Fibre optic splitters are used in FTTH networks, where the Internet is delivered to clients using optical fibre. It is led from the server room to the client device without changing the transmission medium. This technology requires that the signal is distributed to the clients without using additional active devices.

PLC Splitter with symmetrical 1:8 power distribution with both input and output connectors. The compact steel box housing enables easy installation in switches and fiber optic closures.

The Splitter is built on a thin 0.9mm pigtail cable, which makes it easy to install in various types of organizers.

The product is packaged in blister packs to prevent tangling of cables.
