Price: **19.11 zł** gross / 15.54 zł net

Manufacturer: EXTRALINK

Referention number: DNXELPLQIRMNHK

Information:

The EXTRALINK PLC 1:8 0.9 mm fibre optic splitter is a passive power splitter for FTTH networks, enabling symmetrical signal splitting to 8 outputs without the use of additional active devices. The design without connectors at the input and output, together with the compact steel box housing, makes installation in patch panels and fibre optic closures easier. The thin 0.9 mm pigtail cable allows convenient routing in organisers, while blister packaging protects the cables from tangling.

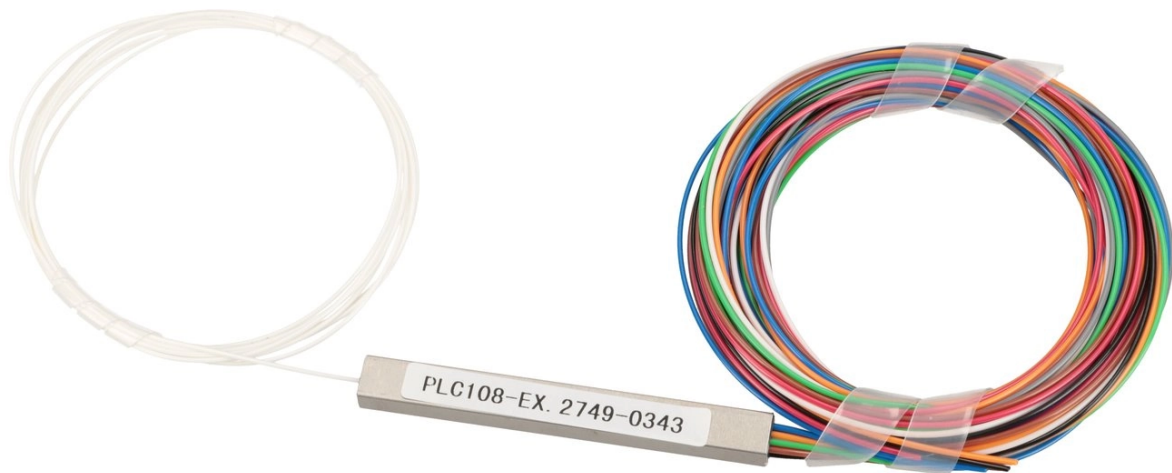

Product features

Connector(s)	9
Number of connectors	9
Connector gender	No
Type	Cable splitter

Full product description

EXTRALINK PLC fiber optic splitter 1:8 0.9mm

Fibre optic splitters are used in FTTH networks, where the Internet is delivered to customers by means of an optical fibre led from the server room to the client's device, without changing the transmission medium. The specificity of this technology requires that the signal is distributed to customers without using additional active devices.

Splitter PLC with symmetrical 1:8 power distribution without both input and output connectors. The compact steel box housing enables easy installation in switches and fiber optic couplers.

The Splitter is built on a thin 0.9mm pigtail cable, which makes it easy to install in various types of organizers.

The product is packaged in blister packs to prevent tangling of cables.
