Referention number: DNXFMLQLDRMMKP

Information:

The Extralink 1U 250 mm shelf is a practical and robust solution for 19" rack cabinets, ideal for storing switches, recorders, power supplies and other devices. The perforated surface ensures better airflow, supports cooling and helps maintain stable equipment operation. The design allows secure installation in wall-mounted and floor-standing cabinets, and the included set of 4 M6*16 screws enables quick, hassle-free installation without specialist tools. The compact 250 mm depth helps save space and organise equipment conveniently.

Product features

Full product description

Functional support for your rack

Extralink 1U shelf with a depth of 250 mm is a practical solution that facilitates the organization and storage of equipment in 19 rack cabinets. Its robust design and adequate load capacity allow you to safely place a variety of equipment, from switches to small servers. Thanks to the ventilation holes, the equipment works in stable thermal conditions, which translates into longer life and more reliable operation of the entire installation.
