Information:

Extralink 1U 750mm Black is a solid steel fixed shelf for 19" RACK cabinets with a depth of 1000 mm. It allows the installation of devices without a rack enclosure, providing them with stable and secure support thanks to 4-point mounting. The black design, with a width of 483 mm and a depth of 750 mm, helps make better use of space, organise the infrastructure, and maintain convenient access to the equipment. The shelf is suitable for server rooms, offices, recording studios, as well as industrial and telecommunication installations. All mounting components are included, allowing for quick and easy installation.

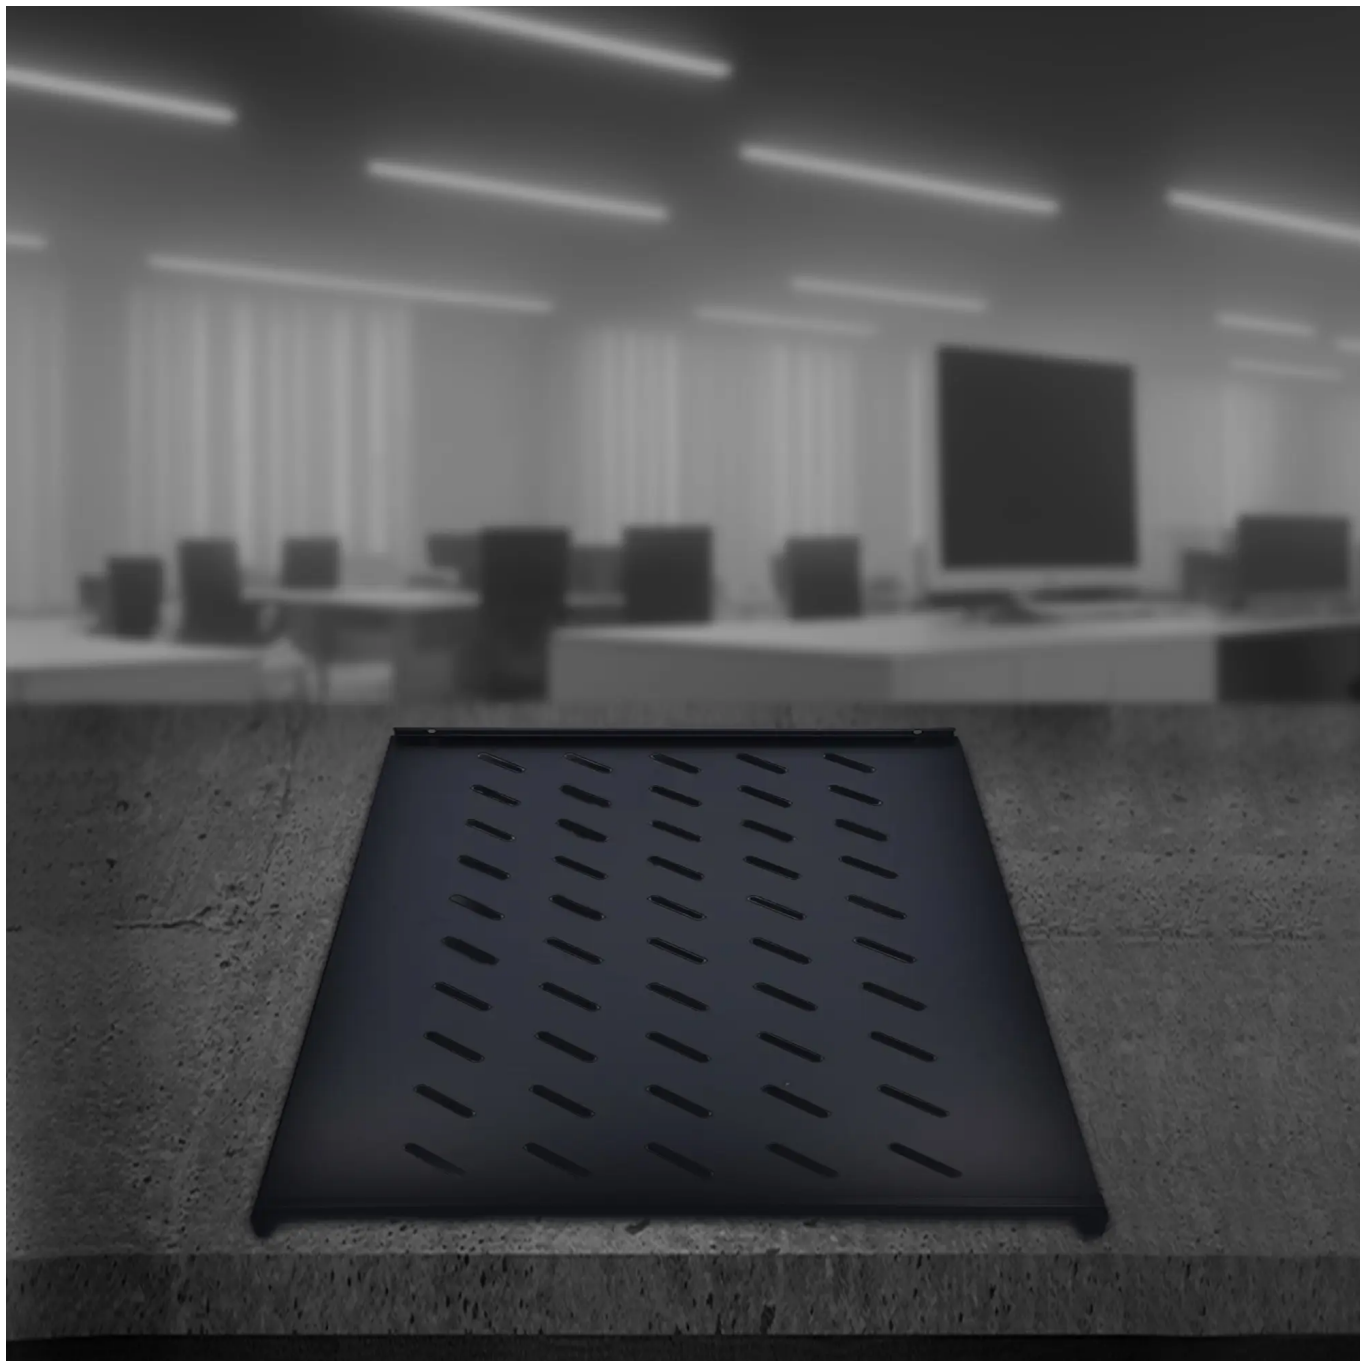

Product features

Width	482.6 mm
Depth	750 mm
Rack capacity	1U

Full product description

Extralink 1U 750mm Black - space under control

Fixed shelf with a width of 483mm, dedicated for mounting in a **RACK** standard cabinet with a depth of **1000mm**. With its help, it is possible to mount devices that do not have a **19"** RACK enclosure in the cabinet. Made of steel sheet in black color. The shelf is fixed in **4 points**, which guarantees its stability. **RACK standard cabinets** are widely used in server rooms, recording studios, industrial premises, teletechnology and power engineering.

Stability you can rely on

Durable steel construction provides secure storage for a variety of **devices**. Point fastening eliminates the risk of shifting and keeps the shelf in one position. This solution ensures that equipment is always firmly seated.

Maximum use of space

With dimensions of **750 mm in depth** and **482.6 mm in width**, the shelf fits perfectly in **19 rack cabinets**. Its presence allows you to organize your infrastructure and maintain an optimal arrangement of equipment. It saves space and better organization of work in any rack.

Flexible applications in any industry

Extralink 1U 750mm Black Shelf will work well in both offices and large IT installations. It is **dedicated to hanging racks**, and its versatility allows it to be used in other configurations as well. It is a practical solution for users with different **rack enclosures**.

Installation without complications

The kit includes all the components needed for installation, allowing you to quickly and conveniently install the shelf in the cabinet. The process requires no additional tools or accessories. As a result, you get a ready-made **accessory** that immediately supports equipment organization.
