Price: **89.99 zł** gross / 73.16 zł net

Manufacturer: EXTRALINK

Referention number: DNXFMIINGRMMHO

Product features

Input voltage	100 V
Output voltage	24 V
LED indicators	Operation
Input current	1.6 A
Power supply type	Universal
Built-in blower fan	No
Cooling type	Passive
Peak power	100 W
Input frequency	50 Hz
Power protection features	Overload
AC input frequency	50 Hz
Output power	30 W
Product colour	Black
Power current type	AC-to-DC
Watch case material	Acrylonitrile butadiene styrene (ABS)
Designation	Universal

Full product description

Power supply for PoE strips with 24 V/48 V block connector, 60 W.

The Extralink 24V/48V power supply is equipped with a 5.5/2.1mm jack connector. It can be used with PoE injectors equipped with a block-type connector to power IP cameras, APs, etc. in this way.

The power supply is equipped with a power cable terminated with a C14 type computer connector.

An LED indicates proper operation of the device. If the short circuit or overload protection is triggered, the power supply cuts off the voltage from the device, which is automatically restored after the failure ceases.
