Full product description

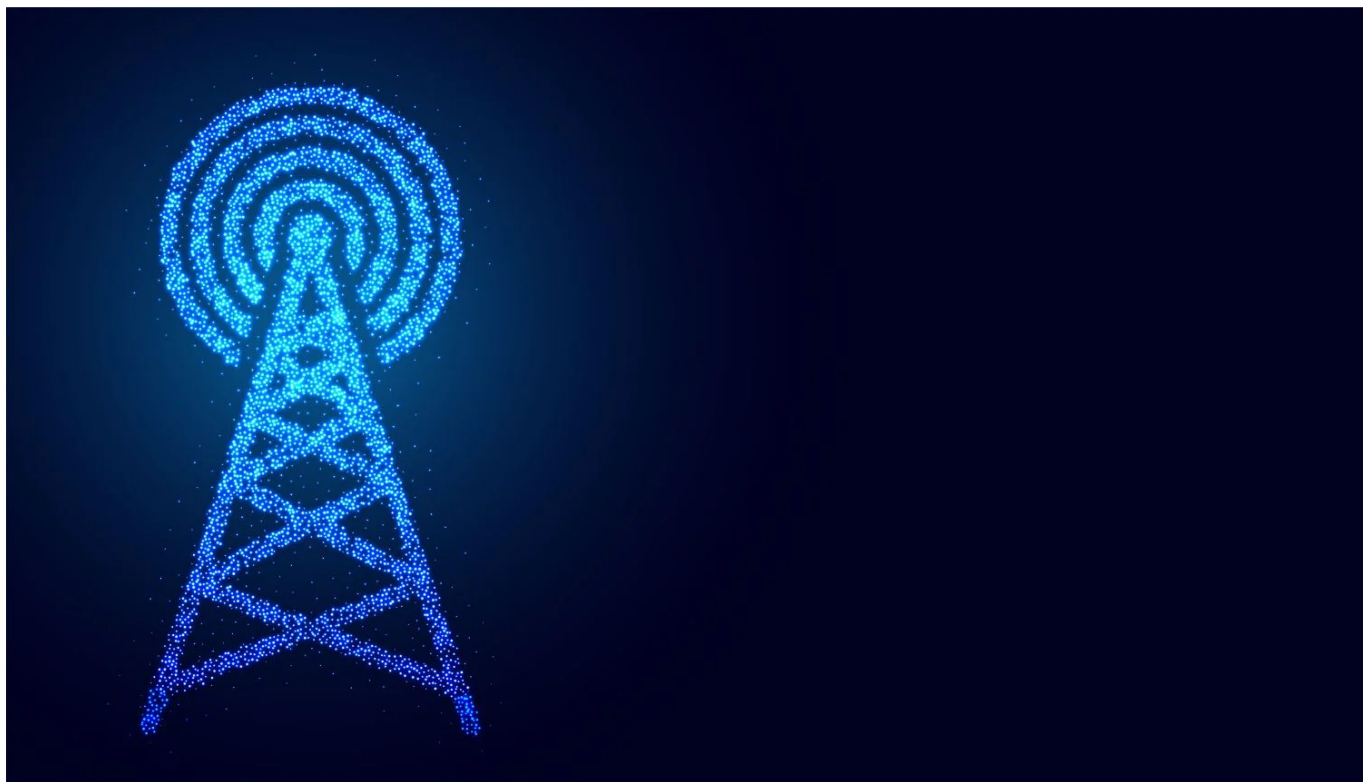

EXTRALINK INDOOR LTE ANTENNA 5DBI 4G-008

Indoor omnidirectional antenna (active antenna that picks up the signal with the whole diameter; works well if the transmitter is closer than 60 km) from [Extralink](#) for use inside the house/company building. It does not have to be positioned in a particular direction, because it collects the signal from any direction.

Antenna frequency

The GSM frequencies of the antenna are **1800 LTE/2100 3G/2600 LTE/700 GSM/800 LTE/900 GSM** and **EGSM** with output power of **50W** and impedance equal to **50 Ohm**. The antenna has been equipped with **SMA male** connector for connection with the receiver.

Network bandwidth

The antenna uses **698 - 2700 MHz** band, but you have the possibility of extending the range of your **wireless network**, so your work can be smoother and more efficient. The **energy gain** is **5 dBi**.
