Information:

The Extralink 6U 600x450 rack cabinet in black is a compact and robust solution for organising network equipment, CCTV and cabling at home, in the office or in a server room. Wall mounting saves space, while the 19" standard and 6U capacity provide convenient device arrangement. The cold-rolled steel construction, welded frame and removable side panels guarantee durability and easy access during servicing. The front tempered glass door with a key lock protects the contents, and cable entry holes plus the option to fit a fan make organisation and cooling easier. Easy assembly and a full set of accessories make installation quick and simple.

Full product description

EXTRALINK 6U rack, 600 × 450 Black - Home Networking Under Control

Cable clutter can hinder the daily operation and servicing of equipment, as well as detract from the aesthetics of the room. The **Extralink 6U 600x450** rack cabinet in black allows you to easily **organize cables and equipment**, enclosing them in a safe and neat space. The wall-mounted design saves space while providing easy access to the entire network installation or CCTV system.

HOME NETWORK UNDER CONTROL

order begins with organisation

Versatile Use In Various Spaces

The **Extralink 6U 600x450** black rack cabinet will work well in the **office** as well as in a **server room, workshop or home network installation**. Thanks to its wall-mounted design, it can be placed in places where space saving and cable order are important. Solid workmanship and a lockable front door guarantee **the safety of the equipment** regardless of the environment in which it is used.

Secure Access And Device Protection

The Extralink 6U 600x450 rack cabinet has a **tempered glass front door** that can be opened for servicing equipment or completely removed for installation. A **keyed lock** protects the contents from unauthorized access, which is important in offices and server rooms. This keeps network equipment, CCTV devices and cabling safe and organized.

Professional locking rack cabinet

Protection, order and
aesthetics in one.
Perfect for organising
home spaces, offices and
server rooms.

Easy Assembly In A Few Minutes

The Extralink 6U 600x450 rack is **designed for wall mounting** and comes with a full set of screws and clear instructions. The installation process is simple and does not require specialized tools or the help of a professional - you can do it yourself. Such a solution saves time and allows you to quickly prepare the rack for use in your home, office or server room.

EASY ASSEMBLY IN JUST A FEW MINUTES

Thanks to clear instructions and a complete set of screws, assembling the cabinet is quick and intuitive.

You can easily do it yourself – no need to call a technician!

Cabinet construction - drawing

- A – Ściana dolna, spód
- B – Ściana tylnia
- C – Ścianki boczne, wypinane
- D – Górna pokrywa
- E – Otwór na kable
- F – Rama

Main features

- Removable side panels
- Standard 19" mounting, welded frame, reliable construction
- Wall or upright mounting
- Self-assembly frame design - easy to carry and transport, reducing shipping costs
- Tempered glass front door with a rotation angle of more than 180 degrees
- Easy installation (patent)
- Cable entry holes on both top cover and bottom panel

Solid Construction And Thoughtful Design

The Extralink 6U 600x450 rack cabinet is made of **cold-rolled sheet steel** for high strength and durability. The welded frame increases stability, and removable side panels allow easy access to the interior during installation and servicing. There are two **built-in cooling holes** in the ceiling of the cabinet, which can be used to mount a fan to improve air circulation.

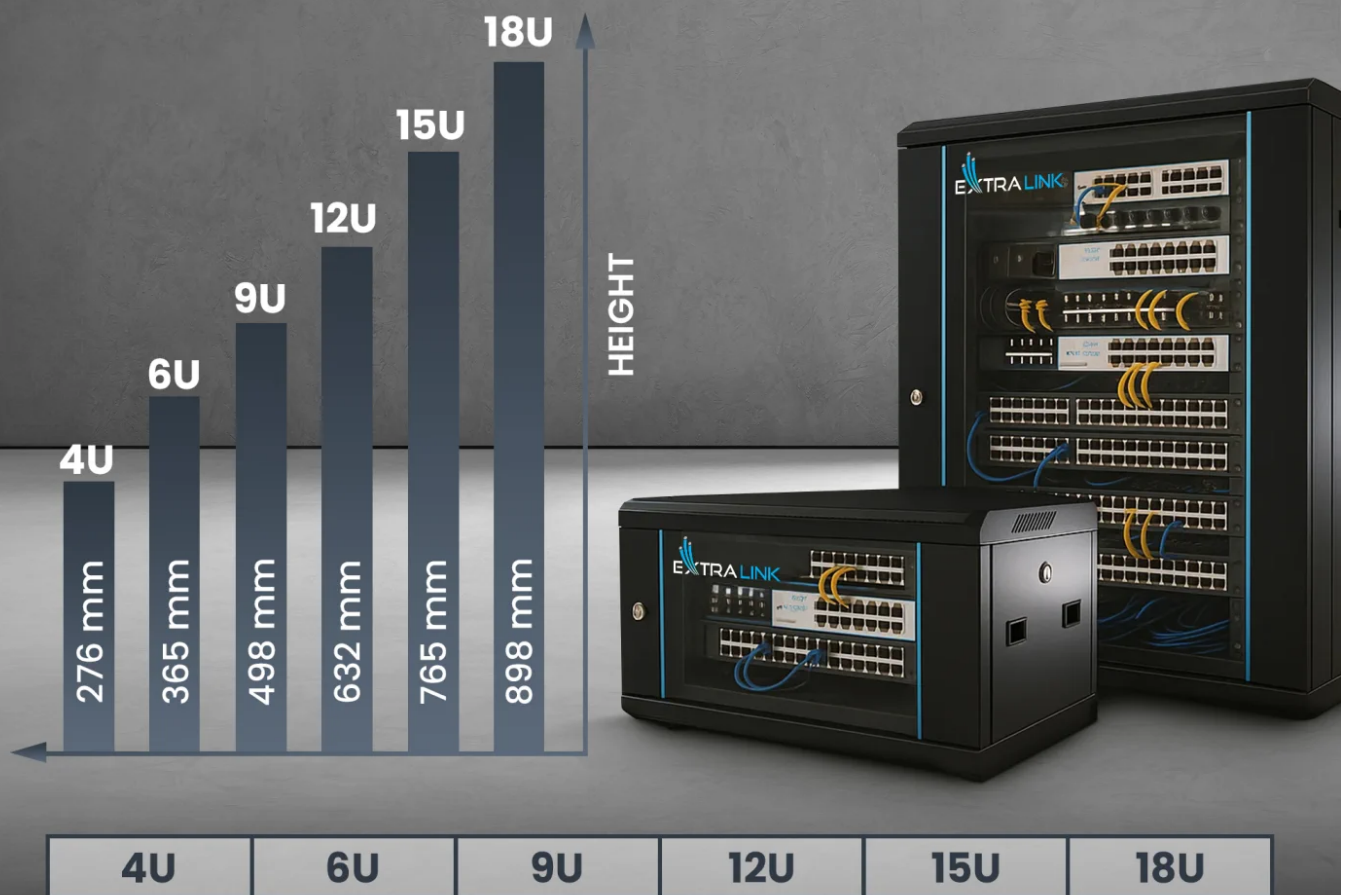

Wide Selection of Extralink Rack Cabinet Models

The Extralink 6U 600x450 model is part of a series of rack cabinets available in **4U to 18U** variants, allowing you to select the capacity of the structure to suit your individual needs. All models maintain consistent **aesthetics and robust construction**, regardless of size. This allows you to create a unified system for mounting equipment in a variety of spaces - from small offices to expansive server rooms.

Large selection of Extralink server racks

Adapt the cupboard to your needs!

Compact Dimensions And Functionality

The Extralink 6U 600x450 rack cabinet has an overall cabinet height of 365 mm, a width of 600 mm and a depth of 450 mm. With these dimensions, it will fit into space-constrained areas, while providing adequate capacity for network equipment and accessories. It's a **practical choice for small offices, home server rooms and spaces** where ergonomic wall space is important.
