Price: **390.00 zł** gross / 317.07 zł net

Manufacturer: EXTRALINK

Referention number: DNXGGIOKJRMJN

Information:

The Extralink AGM 12V 65Ah battery is a reliable, maintenance-free power source for demanding applications. AGM technology provides high energy density, resistance to deep discharges and high temperatures, and a long service life in cyclic operation. The battery does not require electrolyte top-up, is easy to install and safe to use — it does not emit gases or liquids, does not corrode and does not leak. It is suitable for UPS, emergency systems, alarm systems, emergency lighting, automation, electronics and communications power supply.

Product features

Battery capacity	65 Ah
Battery voltage	12 V
Battery technology	Sealed Lead Acid (VRLA)
Product colour	Black

Full product description

EXTRALINK BATTERY - 12V; 65AH

Uninterruptible power supply (UPS), electric power system (EPS), emergency backup power, emergency lighting, railroad signal, air signal. Alarm and security system, electronic apparatus and equipment, communication power supply, DC power supply, automatic control system.

Absorbent Glass Mat (AGM) Technology

Maintenance free lead acid batteries in which the electrolyte is trapped in a separator. Special glass fibres in AGM batteries absorb the electrolyte, which results in a significant increase in cyclic operation. This allows repeated charging and discharging of the battery without compromising performance.

Lead-acid batteries are designed for extreme conditions of use. Thanks to the advanced AGM technology they provide maximum power for a long time and maintenance-free operation.
