Full product description

Have Confidence Behind the Wheel: Your Reliable Partner - Extralink PO-01 Breathalyzer

Keep yourself and others safe on the road with the Extralink PO-01 breathalyzer. This compact and easy-to-use device will allow you to check your blood alcohol level in seconds, giving you the confidence to make responsible decisions. Equipped with a precise sensor, an easy-to-read LCD display and a powerful battery, it will become your indispensable companion in any situation.

Professional USB Breathalyzer

Calibrated and ready to use

Built-in rechargeable battery

Charging cable included

5 mouthpieces included

Large screen

Sound notifications

Measurement range: 0.00 – 4.00 ‰

Precision and Speed of Operation

The key element of the Extralink PO-01 breathalyzer is its highly sensitive solid-state sensor. Forget about vague readings and guesswork - this breathalyzer provides reliable data in the range of 0.00 to 4.00‰, allowing you to assess your state of sobriety with confidence. It has been calibrated, which guarantees the accuracy of your blood alcohol concentration measurements. Just 10 seconds after blowing you will receive the result, presented in a clear form on the LCD screen. The PO-01 breathalyzer will provide you with certain information in no time.

High precision measurements

Comfort of Use and Mobility

The Extralink PO-01 breathalyzer was designed with your convenience in mind. Its simple one-button operation makes it intuitive to use and requires no special skills. Its compact size and lightweight design make it extremely handy - you can easily take it with you anywhere: in your pocket, purse or car glove compartment. This will allow you to check your sobriety status anytime and anywhere.

Lightness and clarity –

a screen that provides easy
and quick reading of results!

Long-Term Operation and Convenient Charging

Forget about the need for constant battery replacement. The Extralink PO-01 breathalyzer has a built-in 200 mAh lithium-ion battery, which allows you to perform about 100 tests on a single charge. A USB cable is included, so you can charge the device at home, in the car, or even with a powerbank. You will never again be surprised by a discharged battery when you least expect it.
