Price: **35.01 zł** gross / 28.46 zł net

Manufacturer: EXTRALINK

Referention number: DNXFMJNPHRMMOK

Information:

The B-300 balcony antenna bracket (left) is a solid, galvanised steel bracket for non-invasive mounting of satellite and terrestrial antennas on railings. Fixing with U-bolts does not require drilling, making installation quick, convenient and non-damaging to the façade. The durable, corrosion-resistant construction ensures a long service life and stable support for the antenna. The left-hand design makes it easier to position the equipment optimally on the balcony. It is suitable for flats, apartment blocks and tenement houses, as well as for DVB-T2, internet and radio antennas.

Product features

Maximum load weight	12 kg
Mounting kit	Yes
Coating	Galvanized coating
Material	Stainless steel
Number of holes	4
Hole diameter	8 mm
Product colour	Steel
Type	Angle bracket
Designation	General purpose

Full product description

Bracket for mounting a satellite dish on the balcony

Steel balcony holder is a good choice for people living in bunker houses or blocks of flats. The shape and dimensions of the holder allow for

comfortable attachment of the antenna to the railing. The use of galvanized steel ensures **resistance to corrosion** and other damage.

How to mount the holder on the balcony?

The handle with a total length of 400 mm, a height of 250 mm and a diameter of 38 x 1.5 mm is mounted on the left-hand side by means of a cybranch, so **there is no need to drill**. Installation of the antenna bracket is easy and fast, as well as possible change of its position.
