Price: **35.01 zł** gross / 28.46 zł net

Manufacturer: EXTRALINK

Referention number: DNXFMJNPJRMMPJ

Information:

The steel balcony bracket for a satellite dish is a practical solution for residents of apartment blocks and multi-storey houses. It allows the antenna to be conveniently mounted to the railing without drilling, thanks to right-side installation using U-bolts. Made from galvanised steel, it offers high resistance to corrosion and damage, while the robust construction ensures stable mounting. The bracket is 400 mm long, 250 mm high and has a tube with a diameter of 38 x 1.5 mm, which makes quick installation and any later repositioning of the antenna easier.

Product features

Maximum load weight	12 kg
Coating	Zinc coating
Material	Stainless steel
Product colour	Steel
Type	Angle bracket
Designation	General purpose

Full product description

Bracket for mounting a satellite dish on the balcony

Steel balcony holder is a good choice for people living in bunker houses or blocks of flats. The shape and dimensions of the holder allow for comfortable attachment of the antenna to the railing. The use of galvanized steel ensures **resistance to corrosion** and other damage.

How to mount the holder on the balcony?

The handle with a total length of 400 mm, a height of 250 mm and a diameter of 38 x 1.5 mm is mounted on the right-hand side by means of a cybranch, so **there is no need to drill**. Installation of the antenna bracket is easy and quick, as well as possible change of its position.
