Full product description

Extralink cable tester

A network detection **cable tester** that allows you to check the short circuit, bandwidth and idle status in a network cable with **RJ45 and RJ11** connectors. The device consists of two parts - a tester and a remote unit that attaches to the tester. It can test cables of **up to 100 meters** or more. The high-quality **LED** display ensures constant brightness and stable LAN test.
