Full product description

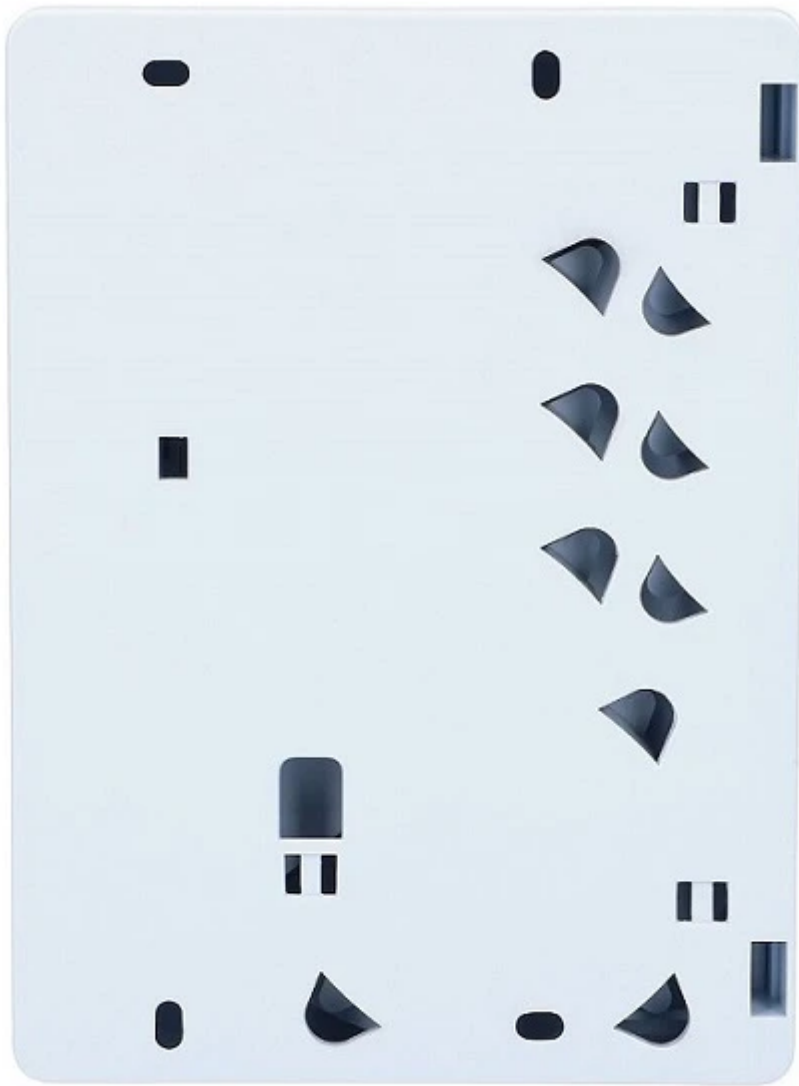

EXTRALINK BERTA 4 CORE - fiber optic box

Extralink BERTA 4 CORE is a box for mounting optical fiber in the **FTTH (Fiber to the home)** system. It is light and compact. It is especially suitable for securing fiber optic cables and pigtails connections in FTTH.

Features:

- The box can be used for wall and stationary applications
- The base and cover of the box is self-clip, which is easy and convenient to open and close
- Can be used for adapters such as SC, FC etc.
- Maximum capacity is 4 fibres
- Easy installation
- Aesthetic design

Installation of an optical fibre box

Depending on the size of the box, drill a hole for an M4 expansion bolt. Then insert the plastic dowel into the hole. Now fix the box to the wall with a 4×25 screw. Cover and close the box.
