Full product description

Bike bag with phone case - practicality and protection in one

Are you looking for a solution that will keep you comfortable and safe while cycling? **Bicycle frame pannier bag with phone case** is a product that will help you store your essential accessories while riding. Thanks to **waterproof** materials, your items, including your phone, will be protected from rain and moisture.

Secure phone storage

The phone case placed in the bike bag provides convenient and safe storage for your device. Thanks to **the transparent front**, you have easy access to your phone's screen, allowing you to use navigation, take calls or check messages without removing your device. **The waterproof phone case** guarantees protection from rain, moisture and dirt.

Convenient organization of space

The bicycle bag consists of two parts, which provides **convenient storage** for your belongings. In one compartment you can keep your phone, and in the other - **small accessories** like wallet, keys or bicycle tools. **The bicycle pannier bag for the frame** allows quick access to stored items, making it a very practical solution for long trips.

Easy installation and stability

The **bicycle pannier bag for the frame** is fastened with Velcro, which allows quick installation and removal of the bag. **Adjustable Velcro** straps allow the bag to fit perfectly to the bike frame, ensuring a stable hold, even on uneven surfaces. The **Velcro attachment** is also easy to use, making the bag convenient to install and remove.

Waterproof - protection in all conditions

Thanks to its **waterproof zippers** and materials, **the bike bag** provides excellent protection from rain and moisture. **The waterproof zippers** ensure that the contents of the bag, including **the phone**, will stay dry even during heavy rainfall. **The waterproof material** ensures comfort and safety, regardless of the weather conditions.
