Full product description

Matte zipper pouches - practicality and durability in any situation

If you're looking for **versatile and durable** packaging that works well for storing and packing a wide variety of items, Extralink zipper pouches matte 300x400 50 pcs is an excellent choice. Ideal for anyone who appreciates **convenience, aesthetics and tightness**. Thanks to the modern **zipper closure**, these pouches are indispensable for everyday use both at home and in industry.

Convenient closing and opening thanks to the zipper

Our zipper pouches are equipped with a **durable and easy-to-use zipper** that allows you to quickly close and open the package. This guarantees convenience when storing a variety of items. Thanks to the tight seal, the contents remain well protected from the elements.

Durability and safety

Matte zipper pouches are made of high-quality LDPE film, which provides resistance to abrasion and damage. Their solid edges have been additionally reinforced, which allows **repeated use** without fear of losing their tightness. **The matte material** adds elegance and aesthetics, while providing opacity.

Multifunctionality and diverse applications

With dimensions of **300x400 mm**, zipper pouches are ideal for storing small items, clothes, cosmetics or documents. **Zipper** pouches are also perfect for packaging in the food, textile or electronics industries. Their transparency makes it easy to identify the contents without having to open the package.

An ecological and economical solution

Thanks to their reusability, **zipper pouches** help reduce waste. They are lightweight, and their use **saves time and money** compared to disposable packaging. They are an ideal solution for both companies and individual customers who care about the environment.
