Price: **48.90 zł** gross / 39.76 zł net

Manufacturer: EXTRALINK

Referention number: DNXFMJNQHRMMPI

Information:

The steel balcony bracket for a satellite dish is a practical solution for residents of apartment blocks and multi-storey houses. It allows convenient mounting of the aerial on the balustrade without drilling, thanks to fastening with U-bolts. Made from galvanised steel, it offers increased resistance to corrosion and damage, while the 1000 mm length and 38 x 1,5 mm diameter ensure stability and easy adjustment of position. Quick installation and the option to reposition the bracket easily make it a functional choice for a balcony aerial installation.

Product features

Maximum load weight	12 kg
Mounting kit	Yes
Coating	Galvanized coating
Material	Stainless steel
Number of holes	4

Type	Bracket
Designation	General purpose

Full product description

Bracket for mounting a satellite dish on the balcony

Steel balcony bracket is a good choice for people living in bunker houses or blocks of flats, because it allows to mount the antenna on the railing very conveniently. The use of galvanized steel ensures **resistance to corrosion** and other damage.

How to mount the holder on the balcony?

The holder with a total length of 1000 mm and a diameter of 38 x 1.5 mm is fastened by means of a cyberbolt, so **there is no need to drill**. Installation of the antenna bracket is easy and quick, as well as possible change of its position.
