Manufacturer: EXTRALINK

Referention number: DNXFMJNQGRMMOJ

Information:

The steel balcony bracket for a satellite dish is a practical solution for mounting on a balustrade in a house or block of flats. Made of galvanised steel, it is resistant to corrosion and damage, making it suitable for outdoor use. The 600 mm length and 38 x 1,5 mm diameter ensure stable mounting of the aerial. Installation is carried out using U-bolts, without drilling, which makes it easy to fit quickly and later change the position of the bracket.

Product features

Maximum load weight	15 kg
Coating	Zinc coating
Material	Stainless steel
Number of holes	4
Hole diameter	8 mm

Type	Bracket
Designation	General purpose

Full product description

Bracket for mounting a satellite dish on the balcony

Steel balcony bracket is a good choice for people living in bunker houses or blocks of flats, because it allows to mount the antenna on the railing very conveniently. The use of galvanized steel ensures **resistance to corrosion** and other damage.

How to mount the holder on the balcony?

The holder with a total length of 600 mm and a diameter of 38 x 1.5 mm is fastened by means of a cyberbolt, so **there is no need to drill**. Installation of the antenna bracket is easy and quick, as well as possible change of its position.
