Full product description

Pole bracket for mounting NanoStation

Robust, steel pole bracket allowing to mount **NanoStation Loco M5 Ubiquiti** devices. It is made of galvanized steel, which makes it **resistant to corrosion** and other damage.

Mounting the NanoStation mount on a mast

The holder can be mounted on a mast with a maximum diameter of **50 mm**. Its construction allows for **adjustment of the device's tilt angle by 10 degrees**. M5 screws are used for mounting the bracket.
