Price: **7.15 zł** gross / 5.81 zł net

Manufacturer: EXTRALINK

Referention number: DNXFMPIRMRMNKM

Product features

Height	26 mm
Connector(s)	IDC
Width	66 mm
Depth	36 mm
Cable shielding	S/UTP (STP)
Product colour	Silver
Connector gender	Female
Cable standard	Cat5e

Full product description

Junction box

The connection box for twisted-pair STP cable is used when it is necessary to weld the conductors of a shielded cable without using a connector. The connection of twisted-pair cable is made by driving the wires into the contact blades of the product.

The junction box provides mechanical and electrical connection of twisted-pair STP cables, allowing secure and durable connection of cable segments. It can be used to extend cables, create branching points in a network, or repair damaged cables. It is particularly useful in installations where cables run through walls, ceilings or floors, and require a stable connection at a specific location.
