Full product description

UTP Cat.5e network cable. Package containing 500m of cable.

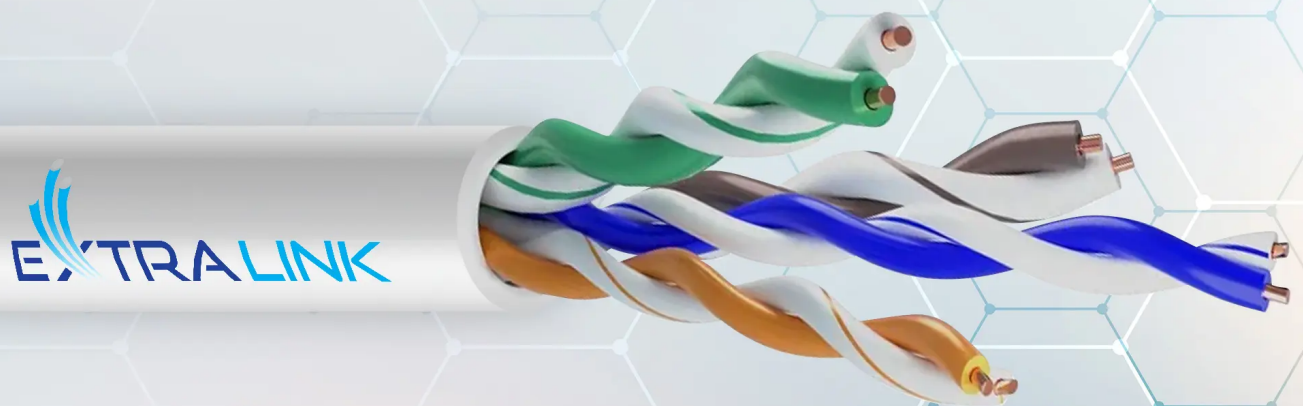

The cables are made of pure copper with a thickness of 24AWG and are surrounded by a PE coating, the diameter of each cable with insulation is 0.9mm. The outer sheath is made of PVC with a thickness of 0.5mm.

EXTRA LINK

CAT5E UTP

Stranded network cable 500m

FTP Cat. 5e is most commonly used for the construction of local area networks and includes Fast Ethernet (100Mb/s) as well as Gigabit Ethernet (1000Mb/s) applications.

Key features

- UTP Cat.5e category cable
- Length 500m
- PE coating
- Outer jacket made of 0.5 mm thick PVC

ROBUST CONSTRUCTION AND SECURE COMMUNICATION

PE coating and convenient uncoating during installation

The PE outer sheath allows the cable to be used outside the building. Packaging equipped with a self-extending roller allows for comfortable cable unwinding without the danger of tangling the cable.

COMPREHENSIVE COMPATIBILITY

Extralink twisted pair cable for rooms

Extralink CAT5E UTP (U/UTP) V2 cable is designed for indoor use, ideal for building networks in offices.

WIDE RANGE OF APPLICATIONS
