Price: **9.99 zł** gross / 8.12 zł net

Manufacturer: EXTRALINK

Referention number: DNXFMPHLLRMMOI

Product features

Cable shielding	U/UTP (UTP)
Material	Plastic
Product colour	Black
Connector gender	No
Cable standard	Cat5e

Full product description

CAT5E UTP junction box

The connection box for UTP twisted pair cable is used when it is necessary to weld the wires of the cable without using a connector. Connecting twisted-pair cable is done by driving the wires into the contact blades of the product.

The junction box provides mechanical and electrical connection of UTP cables, allowing safe and durable connection of cable segments. It can be used to extend cables, create branching points in a network, or repair damaged cables. It is particularly useful in installations where cables run through walls, ceilings or floors, and require a stable connection at a specific location.
