Full product description

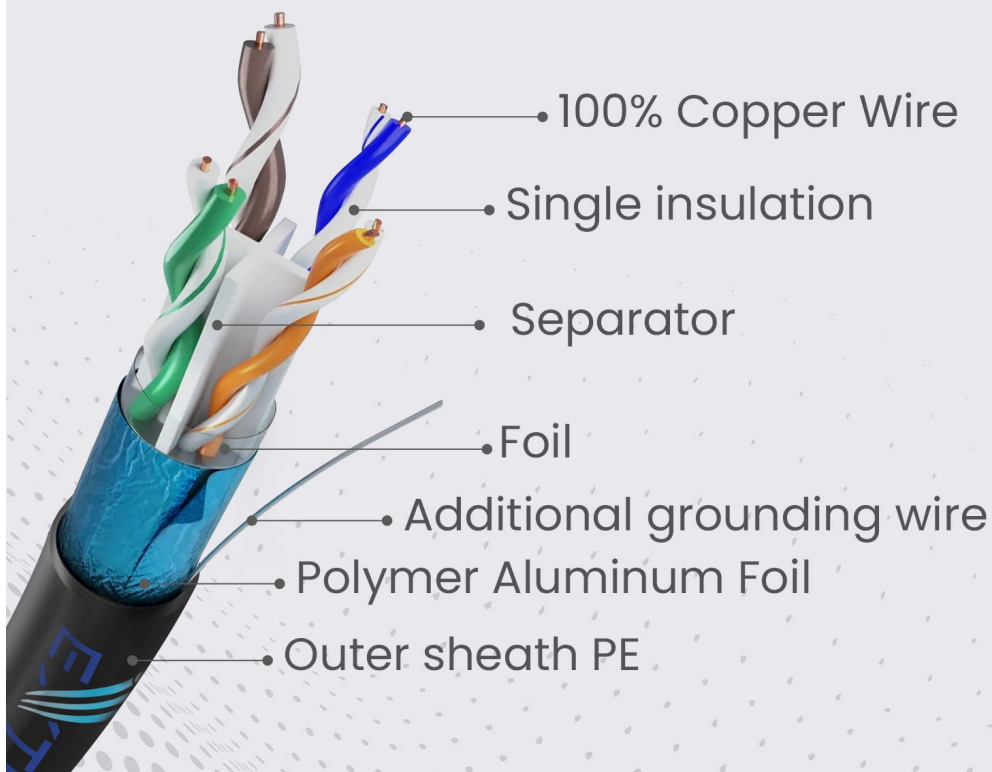

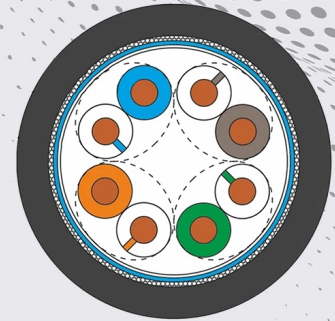

FTP Cat.6 network cable. package containing 25m of cable.

Network cable most commonly used for the construction of local area networks. Category 6 includes cabling whose bandwidth requirements are up to 250 MHz (bandwidth of 200 Mbps). It provides for the implementation of **Gigabit Ethernet (4x 250MHz = 1GHz) and ATM transmission of 622 Mbps**. It is built with 4 pairs of cables twisted together to eliminate electromagnetic and mutual interference. The cables are made of **pure copper** with a thickness of 23 AWG and are surrounded by a PE sheath with a diameter of 1.08 mm. The outer PE sheath is 0.60mm thick.

CAT6 FTP (F/UTP) Outdoor network cable 25M

AWG 24

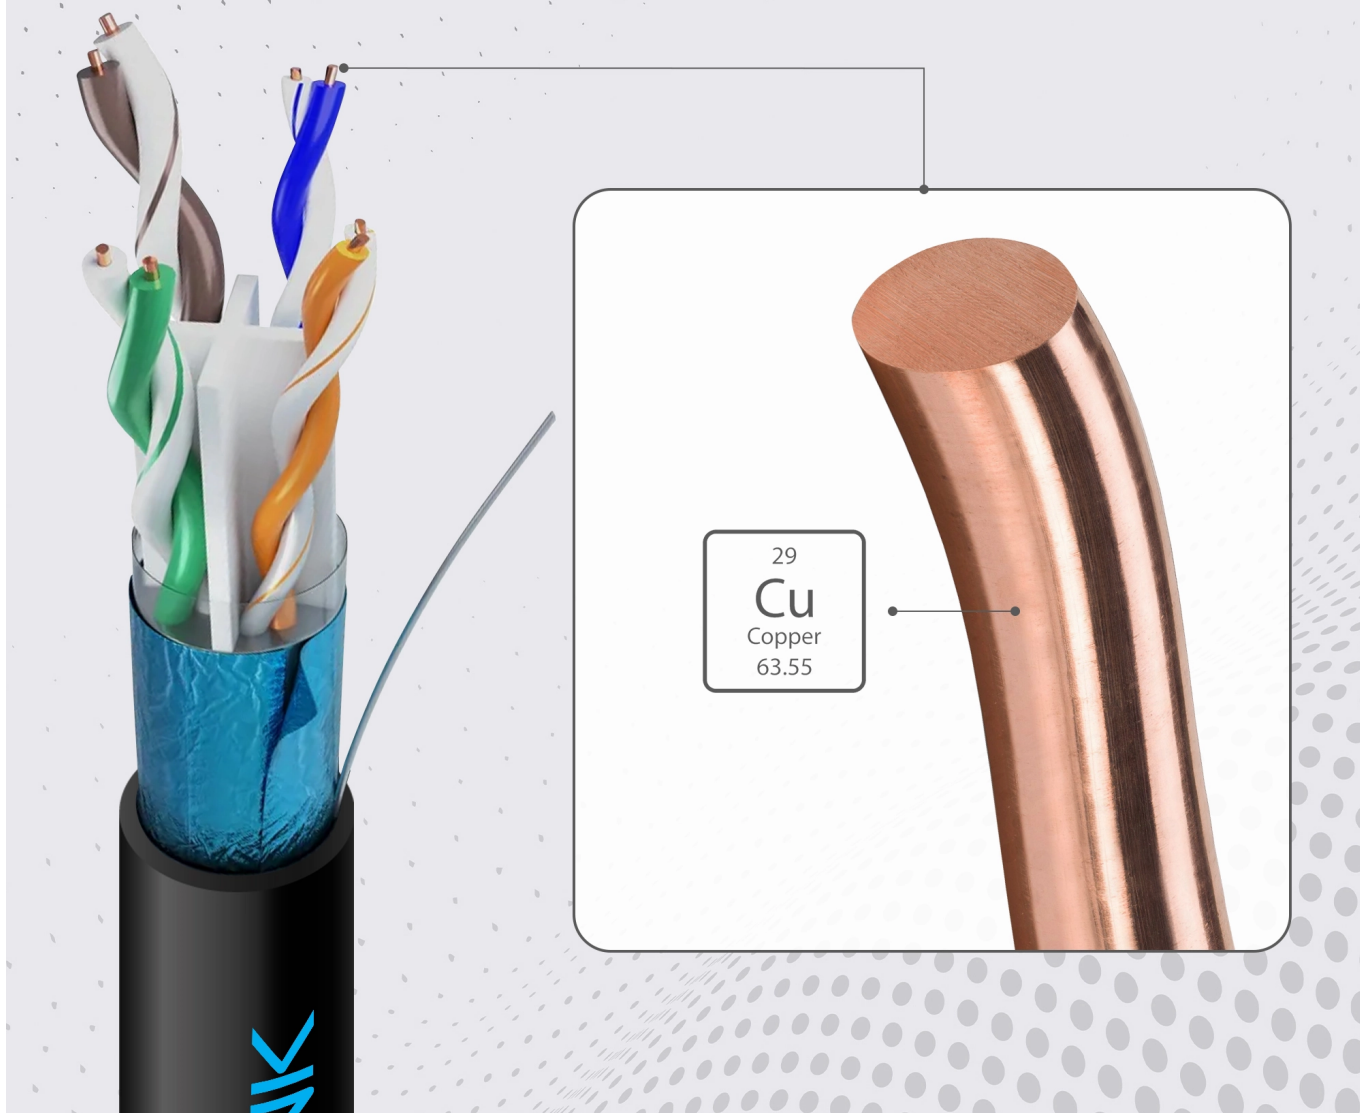

Key features

- Category 6 UTP cable
- Length 25 m
- PE sheath
- 0.6 mm thick PE outer jacket
- Product designed for outdoor use

100% Pure Copper

Outer sheath Polyethylene (PE)

PE coating and convenient unrolling during installation

The **PE polyethylene** sheath **has high mechanical strength**, high chemical resistance and barrier to gases which allows the cable to be used outdoors. Packaging equipped with a **self-unrolling reel** allows the cable to be conveniently unrolled without becoming dangerously tangled

Cable compliant with PoE, PoE+ and PoE++ standards

Enables power supply via network cable

PoE++

Videoconferencing system

Outdoor high-resolution camera

Mini PC

Smart home systems

PoE+

PTZ IP Camera

Powerful Wi-Fi access point

IP Intercom

PoE

Basic Wi-Fi access point

Small IP camera

IP Phone

Extralink twisted pair cable for outdoor use

Extralink CAT6 FTP (F/UTP) V2 cable is designed for outdoor use and has **high weather resistance**. The twisted-pair cable is also often used in closed-circuit **television installations**, where one cable can transmit video signals from several cameras and power.

DURABLE AND ROBUST

Ideal for network cabling

**MAX.
1000 MHZ**

**10
GBIT/S**

**100%
PURE COPPER**

WEATHER RESISTANCE

**UV
radiation**

Snow and frost

**Rain and
moisture**

Solid and proven construction, ensuring reliable and uninter- rupted communication

Highest speed

Reliable
connectivity

Uninterrupted
data transfer
